

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

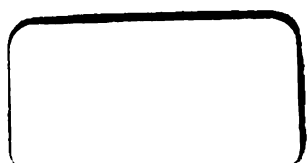

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LAW DEPARTMENT }
OFFICE OF THE CORPORATION COUNSEL, }
NEW YORK, November 30, 1900.

HON. BIRD S. COLER,
Comptroller.

SIR :

I have received your communication of November 17, 1900, which reads as follows :

"Under the provisions of Section 1083 of The Greater New York Charter, as amended by Chapter 91 of the Laws of 1898, "there was transferred to the credit of the public school teachers' retirement fund from the excise taxes received by the City of New York, the following sums:

"For the year 1898,	\$269,094.83
"For the year 1899,	266,859.87

"The Board of Education, by resolution adopted at the meeting held September 26, 1900, in accordance with said Section 1083, apportioned the aforesaid sums as follows:

Boroughs of	1898.	1899.
"Manhattan and The Bronx...	\$149,329.92	\$147,789.38
"Brooklyn.....	97,045.27	94,676.37
"Queens.....	16,846.34	18,453.33
"Richmond.....	6,873.30	5,940.29
Total,	\$269,094.83	\$266,859.87

"I am in receipt of a communication from Hon. C. E. Robertson, President of the School Board of the Borough of Brooklyn, requesting that the amount apportioned to the Borough of Brooklyn be paid to the Secretary of the School Board of the Borough of Brooklyn for account of the Brooklyn school teachers' retirement fund, created by Chapter 656 of the Laws of 1895.

"In view of the fact that the provisions of Section 1083 of the Charter as amended, appear to be re-enactment of Chapter 296 of the Laws of 1894, creating the public school teachers' retirement fund, of the former City of New York, I am constrained to ask your opinion whether the public school teachers' retirement fund of Brooklyn as created by Chapter 656 of the Laws of 1895, is entitled to the amount of aforesaid excise taxes, apportioned by the Board of Education of the Borough of Brooklyn."

In reply thereto I would say that Section 1083 of the Greater New York gives to the Board of Education the general care and management of the public school teachers' retirement fund as created by said act. It also provides that "The comptroller of the City of New York shall hold any money belonging to said fund, and by the direction of said Board of Education shall invest and pay out the same. The Board of Education shall have charge and administer said public school teachers' retirement fund as it

shall deem most beneficial to said fund, and is empowered to make all necessary contracts and take all necessary and proper action and proceedings in the premises, and to make payments from said fund of annuities granted in pursuance to this act; and shall, from time to time, establish such rules and regulations for the administration of said fund as it may deem best; which rules and regulations shall carefully preserve all rights inhering in the teachers of the City of New York as constituted by the passage of this act. And the Comptroller of the City of New York shall report in detail to the Board of Education of the City of New York, annually, in the month of January, the condition of said fund, and the items of the receipts and disbursements on account of the same. And the section then proceeds to state the items which shall go to make up the fund.

This section was amended by Chapter 91 of the Laws of 1898, so as to add to the sources of income of this fund "Five per centum annually of all excise moneys or license fees belonging to the City of New York, as constituted by this act, and derived or received by any Commissioner of Excise or public officer, from the granting of licenses or permission to sell strong or spirituous liquors, ale, wine or beer in the City of New York under the provisions of any law of this State authorizing the granting of any such licenses or permission." And further that "The Comptroller of the City of New York shall hold such moneys together with any other moneys belonging to said fund, and by direction of the said Board of Education shall have charge of and administer the same as hereinbefore in this section provided." The section also contains the following: "None of the provisions of this section shall apply, however, to any teacher in any school in the Borough of Brooklyn, who is entitled to any benefit under the fund mentioned in section 1119 of this act until after his removal from said Borough, except that 5% of the excise moneys herein provided to be paid into said teacher's retirement fund, shall be apportioned by the Board of Education among the several Boroughs of the City of New York, as now constituted, in proportion to the number of teachers actually employed and the amount of salaries paid to them in each of said Boroughs. When a teacher is transferred to the Borough of Brooklyn, a sum equal to one per centum of the amount paid to such teacher during said teacher's service in the City of New York, as constituted prior to the passage of this act, since the date on which the public school teachers' retirement fund of Brooklyn

was created, shall be paid into the said Brooklyn retirement fund and inure to the teacher's benefit in that fund under the rules governing the same."

Section 1119 of the Charter, to which reference is made above, reads as follows:

"The School Board of the Borough of Brooklyn is hereby given the full care and management of the public school teachers' retirement fund, created by Chapter 656 of the Laws of 1895. When a teacher is transferred to another borough having a teachers' retirement fund, his or her contribution may be paid into the said fund and inure to the teacher's benefit in that fund under the rules governing the same."

It is true that Section 1083 as it originally appeared in the Charter was practically a re-enactment or continuation of a similar provision in Chapter 296 of the Laws of 1894, which created a public school teachers' retirement fund for the corporation formerly known as the Mayor, Aldermen and Commonalty of the City of New York. But as the section now stands it is so constituted as to make it applicable in certain ways to any teachers' retirement fund in either of the constituent parts of the new city and especially in regard to that which existed in the former City of Brooklyn.

The provision as to the excise moneys comprehends the five per centum annually of all excise moneys or license fees belonging to the City of New York. The Comptroller is to hold these moneys, together with any other moneys belonging to the retirement fund, for the purpose of said fund as set forth in this section. The section includes a direction as to the manner in which teachers may be retired by the Board of Education and of the amount of annuity which such teacher shall be entitled to receive after such retirement, but none of these provisions applies to any teacher in any school in the Borough of Brooklyn who is entitled to any benefit under the fund previously organized in the City of Brooklyn for like purposes.

The retirement fund for those teachers was authorized under the provisions of the law of 1895 and such provisions are still applicable to them. It was plainly, however, the intention of Section 1083 that the retirement fund of the Borough of Brooklyn, as well as the retirement fund of each of the other boroughs, if there is such a fund, should receive the benefit of its share of the excise moneys appropriated by the act. The law expressly says that the five per centum of the excise moneys provided to

be paid into said teachers' retirement fund shall be apportioned by the Board of Education among the several boroughs of the City of New York, and as these moneys are directed to form a part of the public school teachers' retirement fund they can be used only for that purpose.

You say in your communication that "you are in receipt of a communication from the President of the School Board of the Borough of Brooklyn, requesting that the amount apportioned to the Borough of Brooklyn be paid to the Secretary of the School Board of the Borough of Brooklyn for account of the Brooklyn school teachers' retirement fund." If by this is meant that you should pay over in bulk the share of the five per centum of the excise moneys, which has been apportioned to the Borough of Brooklyn, I would advise you that you would not be authorized to make such transfer. The section of the Charter above considered states explicitly that the Comptroller of the City of New York shall hold any money belonging to said fund and by direction of said Board of Education shall have charge and administer said public school teachers' retirement fund, etc., and again, the Comptroller of the City of New York shall hold such moneys (referring to the excise moneys) together with any other moneys belonging to said fund and by direction of the said Board of Education shall have charge of and administer the same as in the section provided.

But I would also advise you that the public school teachers' retirement fund of Brooklyn as created by Chapter 656 of the Laws of 1895 is entitled to the amount of the excise taxes apportioned by the Board of Education to the Borough of Brooklyn, said moneys to be with the other moneys of said fund held by the Comptroller and paid out by him from time to time in the manner directed under the provisions of law above cited.

Respectfully yours,
(Signed) JOHN WHALEN,
Corporation Counsel.

The report was approved.

By Mr. Bendernagel :

*To the Honorable the School Board
of the Borough of Brooklyn.*

GENTLEMEN :

At your meeting of November 7, 1900, you adopted the following resolution :

Resolved—That the Committee on Teachers be and it is hereby authorized to elaborate and put into effect, on lines similar to those indicated by the Borough Superintendent of Schools in his letter of November 7, a plan to enable principals to obtain substitutes for absent teachers more promptly and more certainly than the plan at present pursued.

The Committee on Teachers hereby respectfully reports for the information of your honorable body that in accordance with the foregoing resolution it has adopted the enclosed plan for supplying substitute service to the public schools of the Borough of Brooklyn, and has authorized the Borough Superintendent of Schools to put it into operation as soon as he can obtain such information as to the residences and availability of persons qualified to do substitute work, as will enable him to assign them to stations. The following provision your Committee desires to incorporate with the other rules that constitute the plan, but it cannot do so without amendment of the Salary Schedule :

For each full attendance from 8.30 A. M. to 10 A. M., at the substitute station to which she is assigned, each substitute shall be paid the sum of fifty cents, provided such attendance is not followed on the same day, by her employment as a substitute.

Your Committee, therefore, respectfully offers the following resolution :

Resolved—That this Board hereby respectfully requests the Board of Education to so amend the Salary Schedule as to provide in all boroughs in which substitute stations are established, that for each full attendance at the substitute station to which she is assigned, each substitute shall be paid the sum of fifty cents, provided such attendance is not followed on the same day, by her employment as a substitute.

Very respectfully yours,

JAMES F. BENDERNAGEL,
RICHARD YOUNG,
HORACE E. DRESSER,
ARTHUR S. SOMERS,
JOS. H. HUNT,

Committee on Teachers.

The resolution was adopted.

WILLIAM H. MAXWELL,
City Superintendent of Schools.

Ordered on file.

From the Borough Superintendent of Schools:

BOROUGH OF BROOKLYN,
February 5, 1901.

*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

During the month of January it is a matter of absolute necessity that your Superintendent recommend for the beginning of the spring term the formation of such additional classes as the reorganization made necessary by the term promotions may demand, and that the Board of Superintendents recommend the changes made necessary in the grading of schools.

Your By-Laws provide that no additional classes shall be formed without the sanction of the School Board. To have waited for that sanction in the present instance would have necessitated damaging delay in beginning the work of the new term. The Local Committees, therefore, have in nearly all cases acted upon the recommendations of the Superintendent and the Board of Superintendents.

I have, therefore, respectfully to request that you approve such action as has already been taken by the Local Committees in carrying into effect these recommendations, and that you authorize the said Committees to form such additional classes in their schools as were recommended during the month of January or as may be recommended during the present month.

Very truly yours,
EDWD. G. WARD,
Superintendent of Schools.

In connection therewith Mr. Bendernagel offered the following:

Resolved—That the action of the several Local Committees in forming additional classes or grades recommended respectively by the Superintendent of Schools and the Board

of Superintendents during the month of January, be and the same is here approved; and that the said Committees are hereby authorized to establish such additional classes or grades as have already been recommended but not formed, and also such as may be recommended during the present month.

The resolution was adopted.

From the Borough Superintendent of Schools:

BOROUGH OF BROOKLYN,
February 5, 1901.

*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

In nominating Miss Rosella Sugar to succeed Miss Eleanor E. McEvoy in my office, I did not mention any salary, taking it for granted that the appointment would carry with it the salary paid to Miss Sugar's predecessor.

In this, it seems I was in error; and I, therefore, respectfully request that you fix Miss Sugar's salary from the date of her appointment, at the rate you paid Miss McEvoy—eight hundred dollars per annum.

Yours very respectfully,

EDWD. G. WARD,
Superintendent of Schools.

In connection therewith Mr. Bendernagel offered the following:

Resolved—That the salary of Rosella Sugar be and hereby is fixed from the date of the commencement of her service, at eight hundred dollars per annum.

The resolution was adopted.

From William A. Griffith and others:

Requesting, in behalf of the Royal Arcanum of Brooklyn, the use of the old 13th Regiment Armory building for the purpose of holding a union meeting on the evening of March 15, 1901.

Referred to the joint Committee on Buildings and Law and Credentials for report at the next meeting.

From the Borough Superintendent of Schools:

BOROUGH OF BROOKLYN,

February 5, 1901.

of the Borough of Brooklyn.*

2. Public School No. 13, William A. Campbell.
3. Public School No. 28, Algernon S. Higgins.

LOCAL RESOLUTIONS.

Committee on Teachers.

The report was approved.

By Mr. Bendernagel:

*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

After very careful consideration of the matter, your Committee on Teachers has reached the conclusion that one provision in the scheme which it reported at your last meeting for supplying substitute service, should be altered. The provision referred to is the one requiring some employee in each school in which a station is established, to take full charge thereof from 8.30 A.M. until 10.00 A.M. every school day.

It has been demonstrated to the satisfaction of the Committee that the withdrawal from her duties at this time in the morning of either a class teacher or a head of department would be very detrimental to the school, and it has been further shown that the expense of employing an extra teacher in each of the station schools who would, as her principal duty, act as a substitute after 10.00 A.M. for any regular teacher who might be absent, and, as a secondary duty, act as substitute agent, would be scarcely more than nominal. The Committee has, therefore, so modified its original scheme as to make permissible where necessary, in a station school, the employment of an additional teacher to substitute for absent teachers and conduct the affairs of the station.

Inasmuch, however, as the By-Laws forbid the employment of additional teachers in any school without the consent of the School Board, the Committee now respectfully presents for your approval the following revised scheme:

**RULES TO GOVERN THE PROVISION OF SUBSTITUTE
SERVICE FOR THE PUBLIC SCHOOLS OF THE
BOROUGH OF BROOKLYN.**

1. Substitute stations are hereby established as follows, viz.:

Station A—In the meeting-room of the School Board, for the accommodation of Schools 1, 4, 5, 6, 7, 8, 9, 10, 12, 14, 15, 27, 29, 30, 32, 39, 46, 47, 58, 77, 78, 107, 111 and 133.

Station B—In the Girls' High School, for Schools 3, 25, 28, 35, 41, 42, 44, 70, 73, 79, 80, 83, 87, 106 and 116.

Station C—In the Eastern District High School, for Schools 16, 17, 19, 20, 24, 33, 37, 38, 48, 50, 52, 53, 69 and 71.

Station D—In the Training School, for Schools 11, 12, 26, 45, 54, 55, 56, 57, 67, 68, 74, 75, 85, 86 and 113.

Station E—In Erasmus Hall High School, for Schools 89, 90, 91, 92, 93, 94, 96, 98, 99, 119, 120 and 121.

Station F—In School No. 84, for Schools 9, 61, 62, 63, 64, 65, 66, 72, 76, 108, 109, 114 and 115.

Station G—In School No. 82, for Schools 2, 40, 60, 95, 97, 100, 101, 102, 103, 104, 105, 112 and 118.

Station H—In School No. 23, for Schools 18, 21, 22, 31, 34, 36, 43, 49, 51, 59, 88, 110 and 117.

These stations shall be open every school day from 8.30 to 10.00 A.M.

2. Requisition shall be made for a telephone to be placed in each of the foregoing buildings not already supplied with one.

3. In each school in which a substitute station is established there may be employed one teacher without a class or other definite assignment. In an elementary school or in a Training School, this teacher shall be appointed as to the Eighth Grammar grade; and in a high school as a junior or substitute teacher. This teacher shall serve as substitute agent between 8.30 A.M. and 10.00 A.M. each school day, and during the remainder of the day shall act as substitute for any teacher in the said school who may be absent. In case no teacher is absent, and in that case only, this teacher shall do such other work as the principal may assign.

Provided, however, that in a high school, the said junior or substitute teacher, shall not be required to teach a branch for which he or she is not licensed.

In schools wherein it is deemed unnecessary to employ the above mentioned additional teacher, the duties of substitute agent shall be discharged by some regular employee of the school, to be selected by the principal with the approval of the Borough Superintendent.

4. Every qualified person who desires to work as a substitute, and who makes her desire known to the Borough Superintendent of Schools, shall by him be assigned to a substitute station. Each substitute shall seek work only at the station to which she is assigned. She shall not visit any school or schools for that purpose.

5. A principal, when in need of a substitute, shall seek one at the station assigned to supply his school, and shall not send to her residence. For his expenses in telephoning the substitute station he shall present to the Committee on Finance at the close of each term a bill approved by the Borough Superintendent of Schools.

6. It shall be the duty of each substitute agent to take charge and control of the station assigned to her during the hours above mentioned, to record the attendance of all substitutes, to receive, and, as far as possible, fill requisitions made by principals for substitutes, and to make such reports as may be demanded by the Borough Superintendent of Schools and the Committee on Finance of the School Board. In sending out substitutes she shall, as far as possible, give each principal his choice. When no choice is indicated, she shall give holders of teachers' certificates preference over holders of substitutes' certificates. When the requisitions received are in excess of the number of substitutes available at the station, she shall endeavor to fill them through communication with other stations.

All of which is respectfully submitted.

WHEREAS: The Charter Revision Commission has reported to the Governor and to the Legislature of the State of New York a revised Charter for the City of New York, and included in its recommendations and report revision of the Educational Chapter of the Charter; and

WHEREAS: By the proposed revision of the Educational Chapter no relief whatever is afforded to the present intolerable conditions affecting the procuring of sites, provisions for more speedy erection of school buildings and for better facilities for furnishing supplies; and

WHEREAS: Instead of proposing methods by which these great essentials could be obtained with increased facility the Commission has proposed a scheme entirely new and purely experimental, which in its important features will bring additional confusion, delay and distress upon an already broken-down system and materially embarrass and retard the same, especially in this Borough; and that while the Commission recommends enlarged powers for the Boroughs in other Departments, in the Educational Department they are wholly destroyed.

Therefore be it resolved: That the School Board of the Borough of Brooklyn hereby registers its unqualified opposition to the proposed scheme of the Charter Revision Commission.

That we hereby petition the Legislature of the State of New York to reject the Educational Chapter of the proposed revision in the interest of the public school system of the City of New York.

BOARD OF EDUCATION,

NEW YORK, February 28, 1901.

GEORGE G. BROWN, Esq.,

*Secretary, School Board,**for the Borough of Brooklyn.*

DEAR SIR:

I have the honor to inform you that at a meeting of the Board of Education held on February 18, 1901, notice was received from the Board of Estimate and Apportionment of the adoption of a resolution approving of the issue of Corporate Stock of The City of New York to the amount of \$3,500,000, to provide means for the construction, equipping and improving of school buildings and additions thereto, and the acquisition of sites therefor, as follows:

For the Borough of Brooklyn.	1,200,000
For the Borough of Queens.	300,000

and, when authority therefor shall have been obtained from the Municipal Assembly, authorizing the Comptroller to issue Corporate Stock to the amount mentioned.

Notice was received from the Board of Estimate and Apportionment of the adoption of resolutions approving requisitions as follows:

a. \$17,888, Corporate Stock, for supplying furniture through sundry contractors for Public School 131, and for sanitary work at new Public School 131 (\$10,975), Borough of Brooklyn, James Harley & Co., contractors.

b. \$3,160, Corporate Stock, for installing an electric lighting plant, fixtures and electric bell system in new Public School 131, Borough of Brooklyn. T. Frederick Jackson, contractor.

BOARD OF EDUCATION,
NEW YORK, February 19, 1901.

GEORGE G. BROWN, Esq.,
Secretary, School Board,
for the Borough of Brooklyn.

DEAR SIR:

Enclosed herewith please find certified copies of reports and resolutions adopted by the Board of Education on February 18, 1901, as follows:

1. Amending sub-division 14 of Section 74 of the By Laws, relative to the pay of substitute teachers.
2. Relative to the request of the School Board for the Borough of Brooklyn for the leasing of premises for school purposes on the southwest corner of Waverly and Myrtle avenues, Borough of Brooklyn.

Respectfully,

A. E. PALMER,
Secretary, Board of Education.

Enclosures (2).

To the Board of Education:

The Committee on By-Laws and Legislation has given careful consideration to the resolution of the Brooklyn School Board recommending that the salary schedule be amended so as to provide that in all Boroughs in which substitute stations are established each substitute shall be paid the sum of fifty cents for each full attendance at the substitute station, provided such attendance is not followed on the same day by her employment as a substitute. Your Committee finds that such provision would be applicable only to the Borough of Brooklyn and that it is of doubtful propriety. The Committee is of the opinion, however, that, in view of the difficult work to which substitute teachers are assigned and the trying circumstances in which they are often placed when acting for absent teachers, their pay should be increased from \$2.00 to \$2.50 per day of actual service. The Committee therefore offers for adoption the following resolution:

Resolved, That the first paragraph of sub-division 14 of Section 74 of the By-Laws be, and it hereby is, amended by striking out "\$2." and inserting in lieu thereof "\$2.50," so that the said sub-division shall read as follows:

"14. Male substitutes shall receive \$3.00 and female substitutes \$2.50 per day of actual service."

A. E. PALMER,
Secretary, Board of Education.

To the Board of Education:

The Committee on Buildings, to which was referred a resolution adopted by the School Board for the Borough of Brooklyn requesting that the second and third floors of the premises on the southwest corner of Waverly and Myrtle avenues, Brooklyn, be leased to relieve

the elementary department of the Training School for Teachers, for a term of two years, at a rental not to exceed \$1,000 per annum, respectfully submits the following:

The premises in question have been investigated and found to be in excess of the height prescribed by law for non-fireproof buildings used for school purposes. It is therefore recommended that the request of the School Board be denied. The following resolution is submitted for adoption:

Resolved, That the request of the School Board for the Borough of Brooklyn that the second and third floors of the premises on the southwest corner of Waverly and Myrtle avenues, Brooklyn, be leased for school purposes, be, and the same is hereby, denied, as the building is in excess of the height prescribed by law for non-fireproof school buildings.

By Mr. Bamberger:

The Law Committee submits its opinion, in pursuance of the following resolution passed November 7, 1900:

Resolved—That it be referred to the Committee on Law “for report whether in their opinion a janitor in our school system is entitled to extra pay for alleged extra services in the school building at which he is employed and for which he is paid a stated salary as such janitor.”

The subject matter of the resolution has been carefully considered by Messrs. George Freifeld and Adolph Kiendl, in conjunction with the Chairman of the Law Committee.

Section 77 of the By-Laws of the School Board is the source of power of the Committee on Buildings, subject to the approval of the School Board, to establish rules and regulations for the control and government of janitors. It has been represented to this Committee, *ex parte*, that such rules have been formulated by the Committee on Buildings. If within the contemplation of these rules, thus formally laid down by the

Committee on Buildings, services are rendered by a janitor, which naturally fall within the meaning, purview and construction of such rules, then such janitor has no claim for extra pay. Nomenclature may not be resorted to, to vary or modify the plain import of a rule. It will not do to call these services "extra services," for the purpose only of laying a claim for extra pay.

If, however, such services as alleged and claimed to be "extra," do not come within the reasonable intendment of the rule then it is but fair to the employee that his claim for extra pay should be considered. In plain words, the answer to the resolution resolves itself into an inquiry of a question of fact. If the proof is conclusive that "extra services" were rendered, then the janitor is entitled to extra pay. But the burden of proof is on the claimant to demonstrate that the "extra" services were rendered beyond, and in addition to, the services legally contemplated by the rule.

The resolution does not specify the nature of the services rendered, and the Law Committee, therefore, deems it advisable to suggest that it be referred to the Committee on Buildings to determine the question of fact, in the light of the opinion hereby rendered.

All of which is respectfully submitted.

Chairman of the Law Committee of the School Board.

Referred to the Committee on Buildings.

By Mr. Bamberger:

On February 5, 1901, the following resolution was adopted:

"Resolved—That the Committee on Law be requested to "advise the Committee on Retirement of Teachers whether

"they will be justified in counting service in evening schools
"as service in public schools, within the meaning of the law;
"and to what extent such service may be counted."

Your Committee adopts the persuasive opinion of Mr. George Freifeld, to whom this matter was assigned.

"Evening Schools are public schools. The Retirement Act
"was intended to provide pensions for those within its provisions who had served as teachers for the stated number of
"years. If service in an evening school is contemporaneous
"with service in a day school, it should not be counted at all;
"otherwise the effect of counting this service would be to give
"credit for double the calendar time spent in the service in the
"public schools and this would not only be a violation of the
"spirit and letter of the law, but would work an injustice to
"teachers who are not in such dual service.

"For teachers who are exclusively in service in the evening schools, the Committee on Retirement may make rules
"governing the credit to be given for such service, which, as
"it is much less in time than day school service, should be
"rated accordingly."

All of which is respectfully submitted.

From the Superintendent of School Buildings:

BUILDING BUREAU,

NEW YORK, March 20, 1901.

To the School Board,

Borough of Brooklyn.

GENTLEMEN:

By direction of the Committee on Buildings of the Board of Education, I respectfully transmit herewith sketch plans for the Manual Training High School to be erected in your Borough.

These plans have been prepared after conference with Mr. C. D. Larkins, Principal of the school, and the only point upon which there is a difference of opinion is the location of the gymnasium. The first sketch, marked "A," shows the gymnasium on the upper floor above the shops, while the revised sketch, "B," shows it placed beneath in the first story, the latter location in my opinion being certainly the most advantageous not only for gymnasium work but also to enable us to get forge room on the upper floor in place of the gymnasium, so that each forge will have an abundance of light transmitted through skylights, something, as far as I can ascertain, hitherto unknown for blacksmith work in technical schools.

The framing, columns and girders can be set so as to give a clear, unobstructed space of gymnasium floor of about 40x75 feet, which is certainly sufficiently large to afford opportunity for basket ball or other games. The advantage of having the gymnasium on the first floor is principally on account of economy of floor space and its accessibility at all times, especially

after school hours or on Saturday and in the evenings when extra gymnasium exercises and basket ball games are liable to be held, without making it necessary for the players and spectators to wander through various parts of the building or being compelled to walk up three flights of stairs or use the elevators.

The total capacity of the school building is about twenty-one hundred pupils, the accommodations afforded on each floor being laid out on each sheet.

I also submit two sketches or elevations: The first is marked "A," but is not so good architecturally nor can it be carried out as economically as sketch marked "B."

Respectfully,

C. B. J. SNYDER,

Superintendent of School Buildings.

Referred to the Committee on Buildings.

From the Superintendent of School Buildings:

BUILDING BUREAU,

NEW YORK, March 21, 1901.

To the School Board,

Borough of Brooklyn.

GENTLEMEN:

At a meeting of the Committee on Buildings held on the 18th inst., a communication from the Secretary of the Commissioners of the Sinking Fund, enclosing a copy of a report of the Engineer of the Department of Finance, relative to the proposed lease of premises (chapel) on the westerly side of 55th street, between 12th and 13th avenues, Brooklyn, was presented.

It was ordered that the papers in the case be referred to your Board for such action as may be deemed necessary.

Copy of report of the Engineer of the Department of Finance enclosed herewith.

Respectfully,

C. B. J. SNYDER,

Superintendent of School Buildings.

The following report and resolution were received from the Board of Education relative to a lease of the chapel on the westerly side of Fifty-fifth street, between Twelfth and Thirteenth avenues, Borough of Brooklyn:

To the Board of Education:

The Committee on Buildings, to which was referred a resolution adopted by the School Board for the Borough of Brooklyn requesting that the chapel situated on the westerly side of Fifty-fifth street, between Twelfth and Thirteenth avenues, Borough of Brooklyn, be leased to relieve Public School 105, for a term of two years from November 1, 1900, at a rental of \$50 per month, respectfully submits the following:

Upon investigation it is found that additional school accommodations are urgently needed in the neighborhood of Public School 105, Borough of Brooklyn, and your Committee would recommend that the request of the School Board be granted, except in regard to the date of beginning of lease, which should be fixed as March 1, 1901.

The following resolution is submitted for adoption:

"Resolved, That the Commissioners of the Sinking Fund be, and they are hereby, requested to authorize the Comptroller to execute a lease of the chapel situated on the westerly side of Fifty-fifth street, between Twelfth and Thirteenth avenues, to relieve Public School 105, for a term of two years from March 1, 1901, at an annual rental of six hundred dollars."

Owners, Trustees of Church, Robert B. Snowden, Rector.

A true copy of report and resolution adopted by the Board of Education, February 18, 1901.

February 26, 1901.

HON. BIRD S. COLER,
Comptroller.

SIR:

At a meeting of the Board of Education, held February 18, 1901, the following proceedings were had:

"Resolved, That the Commissioners of the Sinking Fund be, and they are hereby requested to authorize the Comptroller to execute a lease of the chapel situated on the westerly side of Fifty-fifth street, between Twelfth and Thirteenth avenues, to relieve Public School 105, for a term of two years from March 1, 1901, at an annual rental of six hundred dollars."

Owner, Robert B. Snowden, Fifty-fourth street and Thirteenth avenue.

Public School 105 at the present time is closed for repairs, but when reopened will be unable to accommodate, in full-term classes, all the children; and, in consequence, additional room is needed.

The premises consist of a one-story-and-gable frame chapel building, situated on the westerly side of Fifty-fifth street, 220 feet north on Thirteenth avenue, about 25 feet by 65 feet, with an extension in the rear of the Church, 20 feet by 30 feet in size, all inside dimensions, and containing about 2,225 square feet.

The building is heated by steam, lighted by gas, and has been subdivided by the Board of Education into four classrooms, who also installed an extra boiler and extended the steam-heating plant.

It would appear from the information that I have obtained that, at the beginning of the school year, a committee of citizens, whose children were presumably unable to obtain school accommodations, made arrangements with the owner of these premises for the use of the same for school purposes, with the understanding that the church would have the use of the premises outside of school hours.

The lease was drawn at a rental of \$25 per month. Negotiations were then opened with the Brooklyn School Board to assume the lease and take control of the school, which was done and the improvements above noted made.

The owner, however, refused to lease to the Board of Education, now that the church was debarred from the use of the building outside of school hours, this being occasioned by the subdivision of the chapel and the installation of desks and chairs, for a less sum than \$50 per month, and a resolution was passed by the School Board requesting a lease to be made from November 1, 1900, on these terms.

The Board of Education declined to date the lease back to November 1, 1900, at the advanced rental and requested that a lease be authorized from March 1, 1901, for two years.

The owner refused to accept these terms, and has already filed a claim in this Department for four months' rent from November 1, 1900, to March 1, 1901, in the sum of \$200, being at the rate of \$50 per month.

In consequence, I do not think that the Commissioners of the Sinking Fund should act upon this matter until definite arrangements are made by the Board of Education with the owner, and I would therefore recommend that the matter be referred back to the Board of Education.

In regard to the value of the premises, I beg to state that the entire plot of land, including both church and chapel, are valued on the tax books for 1901 at \$2,500, and if the rental is to be based upon the proportionate value of the chapel alone, I do not consider that it should be in excess of \$35 per month, and to date from the time of occupation, namely, November 1, 1900.

Respectfully,

EUG. E. McLEAN,

Engineer.

Which was referred back to the Board of Education.

From the Borough Superintendent of Schools:

BOROUGH OF BROOKLYN,

April 2, 1901.

*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

A most unfortunate condition of affairs in the matter of the provision of supplies scholastic and other for the schools has existed ever since consolidation, and complaints verbal and

written have been exceedingly numerous. In some branches, notably sewing, the work in certain schools has at times had to be absolutely suspended. My attempts to secure a remedy for the evils complained of have hitherto been confined to sending copies of complaints to the Superintendent of Supplies. I cannot see that this has resulted in any good, and I am forced to the conclusion that there is some cause for the trouble altogether beyond his control. I have at last, therefore, made up my mind to present the matter formally to you and ask you to take such action in the premises as may have a tendency to bring relief.

I have a great pile of letters recently received from Principals in which bitter complaint is made of absolute failure to deliver many things and long and damaging delay in the delivery of others. In these complaints the whole field of school supplies is covered. Text-books, stationery, sewing materials, drawing materials, and fuel are all included. One Principal presents me a list of articles ordered in December containing over seventy (70) specifications under which nothing has yet been delivered. The complaints do not stop here, but they extend to the quality of the materials. Ink, stationery, and coal come in for the strongest criticisms in this respect. Of the coal, one Principal says, "It's quality is so poor that about twice as much has to be burned as should be required to produce a certain amount of heat."

I think I have presented this matter as much in detail as necessary, but to thoroughly illustrate what I have said I venture to insert a sample communication from one of the Principals whose name for obvious reasons for the present I withhold.

All the letters in my possession I shall hold for inspection by your honorable body, or by any member or members thereof who may desire to look them over.

SAMPLE LETTER FROM A PRINCIPAL.

"Responsive to your esteemed inquiry of March 27, received to-day, I have the honor to report as follows on supplies since January 1, 1901.

"Our pass book with order for supplies with which to begin the new term, February, 1901, was sent to headquarters December 11, 1900. None of the books required for the new classes were on hand at the beginning of the term. In some

cases, the parents bought books of local dealers, in others we put two pupils to a book, letting one pupil take it home one day and another the next. Part of the order was filled February 26, and part of it March 7, and part of it is not yet filled. The damage to our instruction seems to me serious.

"The particular line of supplies now lacking and most needed is attendance postal cards. The depot is usually unable to supply these. None have been sent me this year, though the Superintendent doles out a few when I send a messenger for them. Our by-laws forbid us to use any other means of tracing absent pupils than by the use of postals. Lack of postals demoralizes our attendance, increases truancy and makes the teachers careless. I have been for some time entirely without them.

"The ink furnished this school for the past two years is of so inferior a quality as to make it difficult to teach neatness and good penmanship. It thickens in the wells in a remarkably short time; it gums, spatters, smears the paper and corrodes the pens. I have formally complained of it to the Supply Department. The paper is so thin that the pen often punctures it. The perforations for binding are irregularly made, so that class-work to be preserved for Superintendents has to be re-perforated by hand.

"I lose upwards of \$30.00 a year in supplies charged to me but never delivered. Invoices of goods sent rarely accompany the delivery. No invoice has been received this year. I sign a book receipt for a certain number of baskets. Each basket may be three or four articles short, and often is. Following each delivery an agent comes to inquire whether I received twenty or so extra books that some one has lost.

"The pass-book system is a hindrance and a delay; supplies ought to be ordered by triplicate carbon copy order blanks, one to be kept at the school, two to go to the depot, one coming with supplies for principal's receipt after each item received. A principal cannot count on his full appropriation, as certain goods have no price named in the supply list, other prices are changed, and toward the end of a year gets a notice that his account is overdrawn. The supply department assumes to know more of the wants of a school than the principal, and decides whether he is well supplied or not.

"The present system of holding an educational officer responsible for scholastic work, while he has no power to compel action by the supply department, is as absurd as it would be to make the commissary of an army independent of the commander. If Grant had wanted to go to Corinth, but his commissary had been able to hold him up by failing to send on the ammunition, there would have been the condition that exists in Brooklyn to-day. The supply of needful things for the conduct of a school has been so slow, poor and unhelpful in Brooklyn as to be a scandal of three years' duration."

Trusting that the wisdom of your honorable body may devise a means of accomplishing what my appeals joined to those of scores of the Principals have failed to accomplish, I am

Very respectfully your obedient servant,

EDWD. G. WARD,

Superintendent of Schools.

The resolution was adopted.

By Mr. Bassett:

WHEREAS, The Board of Estimate and Apportionment on February 7, 1901, passed a resolution approving of the issue of bonds to the amount of \$3,500,000.00 for schools and sites in the City of New York, of which sum \$1,200,000.00 was designated for the Borough of Brooklyn, this sum of \$1,200,000.00 being made up approximately of five sites at \$180,000.00, and five buildings at \$1,020,000.00, and

WHEREAS, The following situation exists as regards Brooklyn:—All of the money raised for schools and sites in Brooklyn on the bond account of 1900 has been dedicated to schools now in course of construction, and sites now in course of acquirement. The sites here referred to are the eleven sites recently approved by the Board of Estimate and Apportionment, and three sites, viz., Bedford avenue near East Broadway, Railroad avenue and McKinley avenue, and Van Siclen street and Avenue U, now pending before such board. The city now owns the following sites upon which new buildings are imperatively needed: Gates avenue and Stuyvesant avenue, Fort Hamilton avenue and Ocean Parkway, Manhattan avenue

and Metropolitan avenue, Park place near Nostrand avenue (Training School), Fourth avenue and 60th street, Henry and Rapelyea streets, and Seventh avenue and Fourth street (Manual Training High School). This makes seven sites, all located where part time classes are thickest. No money is left from the bond account of 1900 to build schools on any of these sites. The whole appropriation for new buildings will be taken up by new buildings for the first five of the above mentioned sites. In other words, the appropriation for 1901 falls far short of providing buildings for sites now owned by the city and situated in the most congested districts. Moreover, the Board of Estimate and Apportionment has approved, and the city will soon be the owner of the following much needed sites for new buildings: Avenue C and E. 13th street, 15th avenue and 72d street, W. Third street and Sea Breeze avenue, and Leonard and McKibbin streets. No time should be lost in placing schools on these four sites, particularly on the site at Leonard and McKibbin streets, to relieve Nos. 21 and 43, probably the most congested schools in Brooklyn, and Avenue C and E. 13th street in Flatbush, where buildings are being rented to house part-time classes. The appropriation includes nothing for these schools if five of the sites now owned are built upon. Moreover, in addition to the last mentioned sites the Brooklyn School Board has selected and approved thirteen sites, all needed for buildings to relieve actual present congestion. Although Brooklyn is in need of all of these sites with buildings, upon them in order to place substantially all scholars on full time, yet the appropriation for new buildings for 1901 is only enough to erect schools on five of the sites which the city already owns, leaving all of the other present pressing needs to be taken care of in the distant future. That is to say, if the population of Brooklyn should become stationary, it would take four years of school construction at this rate to place all the children in full-time classes. With an increasing population this rate of construction does little more than provide for annual increase, and does very little to decrease part-time classes.

AND WHEREAS, It is plainly imperative that further provision should be made for the issue of bonds in 1901 for new school buildings in the Borough of Brooklyn, and

WHEREAS, By Chapter 532 of the Laws of 1897 the Comptroller upon the application of the Brooklyn Borough Board and upon the approval of a majority of the members of the Municipal Assembly and of the Board of Estimate and Apportionment, is authorized to issue additional bonds for Brooklyn school sites and buildings for a further amount not exceeding \$2,500,000.00,

THEREFORE, RESOLVED — That under and pursuant to said provisions of Chapter 532 of the Laws of 1897, this School Board hereby makes application to the Comptroller of the City of New York for the issuance of bonds to the amount of \$1,698,000.00, the proceeds of said bonds to be used for the erection of new buildings as follows:

Henry and Rapelyea streets.	\$182,000 00
Seventh avenue and Fourth street (Manual Training High School).	450,000 00
Addition to Erasmus Hall High School.	350,000 00
Avenue C and E. 13th street.	182,000 00
Leonard and McKibbin streets.	252,000 00
Fifteenth avenue and 72d street.	182,000 00
Sea Breeze avenue and W. Third street.	100,000 00
Total.	<hr/> \$1,698,000 00

BUILDING BUREAU,

NEW YORK, April 17, 1901.

MR. GEORGE G. BROWN,

Secretary, School Board,

Borough of Brooklyn.

DEAR SIR:

At a meeting of the Committee on Buildings held on the 15th inst., a communication from the Auditing Bureau was submitted, to the effect that at a meeting of your School Board held on April 2, 1901, a resolution was adopted approving the action of the Committee on Buildings of your Board, increasing the salary of the janitor of Public School 23 to the rate of \$2,105 per year, to take effect February 11, 1901, but as the power of fixing salaries of all janitors of the public schools vested in the Board of Education of the City of New York, and was delegated by it to the Committee on Buildings, no recognition would be taken of the action until otherwise instructed by the Committee on Buildings.

It was ordered that your School Board be notified that since the passage of the Davis Law the administration of the Special School Fund is vested in the Board of Education, and therefore, the School Boards have no right to increase or fix the salaries of janitors of the public schools or make appropriations from any part of that fund. The Committee, however, will be glad to receive any recommendations from the School Board in regard to this matter or any other of a similar nature.

Respectfully,

C. B. J. SNYDER,

Superintendent of School Buildings.

BUILDING BUREAU,

MR. GEORGE G. BROWN,

*Secretary, School Board,
Borough of Brooklyn.*

DEAR SIR:

At a meeting of the Committee on Buildings held on the 15th inst., a request from the Principal of the Manual Training High School, Brooklyn, to have a pump placed in the building to supply a sufficient quantity of water at all times to the fourth floor, was considered.

In this connection a report (of which the enclosed is a copy), from Deputy Superintendent Ross, was considered.

It was ordered that the matter be referred to the School Board for its decision in the matter, as the necessary improvements will cost about \$1,500.

Respectfully,

C. B. J. SNYDER,

Superintendent of School Buildings.

March 19, 1901.

C. B. J. SNYDER, Esq.,

*Superintendent of School Buildings,
New York City.*

DEAR SIR:

In answer to your communication of March 13, relative to the insufficient supply of water on the top floor of the Manual Training High School, I beg to submit the following report of Mr. Rodman, Sanitary Inspector:

"In regard to Mr. Snyder's letter about Manual Training High School, I have thoroughly investigated this matter and respectfully report as follows. The sanitary work in this building throughout is old and defective, and the accommodations are not sufficient for the pupils

The water supply in the vicinity in which this building is located is very poor, and in order to remedy this defect it would be necessary to install a pump in cellar; connect pump with a new water main (as mains in building at present are old and defective); erect a tank on roof set on iron beams which would have to extend from one wall of building to the other; extend pump riser from pump in cellar to tank on roof, and extend supply pipe from tank to all fixtures in building, which would be a very expensive job, as floors would have to be taken up and a large quantity of pipe now in building renewed and reconnected to the new supply from tank."

Continuing, this alteration and improvement would cost considerably over \$1,000, and give no accommodation for pupils' closets, because there is not any room to put in any more fixtures, as every inch of this building is now utilized.

We have no funds set apart in the budget of this year for any improvement of this building. A considerable amount of money was expended for improvements in this building last year, amounting all told to nearly \$6,000. This included new metal ceilings, repairs to the staircase, new lockers in basement, and painting throughout. Part of this was done by the owner, and about \$3,500 was expended by the Department of Education. We would have improved the plumbing arrangements had there been sufficient room to place more fixtures, but we thought the old plumbing would do for a few years, or until a new building was erected for the Manual Training High School.

Last year the question of a sufficient supply of water for the top floor of this building was not raised, because the water flowed freely on the top floor; an evidence of it was the repeated overflowings of the laboratory sinks, flooding the whole building; but at this time and for a few months back the supply of water has not been sufficient on the top floors of any of the buildings in this neighborhood during the daytime.

If you think it wise to expend \$1,500 or more on this

plumbing, without giving any extra closet accommodations, please advise me and I shall have to take the money from other schools and apply it here.

Respectfully,
(Signed) A. W. ROSS,
*Deputy Superintendent of Buildings,
Borough of Brooklyn.*

Referred to the Committee on Buildings.

From the Superintendent of School Buildings:

BUILDING BUREAU,
NEW YORK, April 25, 1901.

*To the School Board,
Borough of Brooklyn.*

GENTLEMEN:

At a meeting of the Committee on Buildings of the Board of Education held on April 22, 1901, there were presented for its consideration by the Superintendent of School Buildings, sketch plans for new Public School 129, Gates avenue, near Quincy street, and for new Public School 140, Sixtieth street, near Fourth avenue, Borough of Brooklyn.

It was ordered that the sketch plans, and also a full copy of the report of the Superintendent, be forwarded to your Board for consideration and action as provided for by Section 1,074 of the Charter and Section 48 of the By-Laws of the Board of Education.

The report follows:

NEW YORK, April 22, 1901.

*To the Committee on Buildings,
Board of Education.*

GENTLEMEN:

I respectfully submit herewith for your approval sketch plans for the following new buildings:

New Public School 129 is to be erected on Gates avenue, near Quincy street, upon a plot of ground 150 feet

front by 200 feet in depth, extending through the block. It appears from the report of the Borough Superintendent that the needs of the neighborhood at the present time only require the erection of a twenty-six classroom building. The sketches provide for a four-story and basement building to face on Gates avenue and extending only so far back into the plot as will give a building to afford the desired accommodations, leaving space for future enlargement.

The basement will provide for indoor playrooms and space for heating and ventilating apparatus, coal storage etc.

The first, second and third stories have eight classrooms each, with library and teachers' rooms.

The fourth story provides for two classrooms, an assembly hall and a gymnasium. A readjustment of the spaces available can be made so as to provide for smaller library rooms and the transfer of the gymnasium to the basement, thus making a thirty classroom building.

The sketch showing the design of the Gates avenue elevation provides for a building of a character which will not permit of a reduction in cost over those heretofore contracted for.

I also beg to submit sketch plans for Public School 140, Sixtieth street, near Fourth avenue (Sketch A), having eight rooms on each of the first, second and third stories and four classrooms and an assembly room on the fourth story. The floor plan is similar to that of several of the recent buildings, with the exception that it has been restudied so as to eliminate every foot of floor space possible and not encroach upon the standard size for classrooms heretofore adopted for the new schools in the Borough of Brooklyn; each classroom will be 22x30 feet, with the longest side to the light.

Sketch A provides for a floor area of 8,536 square feet, eliminating as it does the space for pupils' toilets which have been placed on the various floors of the new buildings erected during the last three years.

My reasons for eliminating the closets are threefold:

First: Being a repetition of the statement I have heretofore made that I do not think it wise to distribute the pupils' toilets upon the various floors of the building on account of the liability that unsanitary conditions may arise.

Second: The greatly increased cost, which in a number of instances has been upwards of \$15,000—exclusive of the plumbing work.

Third: The greatly increased cost of the plumbing work due to the installation of such an enormous number of individual fixtures believed to be necessary where pupils' toilets are placed upon each floor.

Sketch A will provide for ample flue space (8 sq. ft. for each room) for heating and ventilation, supplying each child with 30 cu. ft. of fresh air per minute; also for wardrobes accessible from the classrooms and ventilated into the outside air; also ample principal and teachers' rooms, toilets, book and storage closets, etc., and yet will permit of a greater reduction in cost through the cutting down of useless floor space and removing the pupils' closets to the basement or yards.

There is no reason that I can discover why we should not be able to erect school buildings in the Borough of Brooklyn to house a certain number of children as cheaply as we do in the Boroughs of Manhattan and The Bronx, and yet the following figures show that it costs more, all buildings being alike fireproof.

Public School 64, Berriman street, Brooklyn.—Four stories and basement high, cost \$17.69 per square foot or \$6,536 per classroom. The building consists of a basement story, the floor level of which is about 5 feet below the curb level, and contains indoor playrooms, coal storage rooms and boiler and engine rooms.

First, second and third stories eight classrooms each, fourth story four classrooms and assembly room—twenty-eight classrooms and assembly room at a cost of \$183,000.

Public School 170, 111th street, near Lenox avenue, Manhattan.—Five stories and cellar, steel skeleton construction. Cellar, floor level of which is 11 feet below

curb level, is given over entirely to coal storage and the heating and ventilating plant.

First story, two kindergarten rooms and indoor play-room.

Second, third and fourth stories, 16 classrooms each—50 classrooms.

The cost per classroom on this basis would be \$5,394, or \$642 per classroom less than Public School 64, notwithstanding the fact that there is yet a fifth story in Public School 170 of which no account has been taken, equal in area to 16 classrooms, but which is set aside for manual and physical training, draughting, sewing, etc., etc.

Allowing a space of 4 classrooms to offset the space of 4 classrooms occupied by the assembly room in Public School 64, there should be a total of 62 classrooms at a cost of \$4,753 per room, or \$15.56 per sq. ft., while the interior and equipment of Public School 170 is far superior to Public School 64.

New Public School 137, Saratoga avenue, between Chauncey and Bainbridge streets, Brooklyn, cost \$15.73 per sq. ft. for a four-story structure, which it will be noted is 8 cents per sq. ft. in excess of the cost per sq. ft. of the five-story building in Manhattan.

New Public Schools 131 and 134, Brooklyn, are costing at the rate of \$13.70 and \$13.16 per sq. ft. respectively. They are each three stories and basement in height and have 20 classrooms and an assembly room.

New Public Schools 178 and 182, now under construction in the Borough of The Bronx, are costing \$13.51 and \$13.26 respectively. They are each four stories and basement in height and have 24 classrooms, besides the entire fourth story for manual and physical training, which in case of need will afford 8 classrooms, making a 32 classroom building.

It is well understood that a three-story school building is nearly as expensive as a four-story building affording 25 per cent. more accommodations. Thus Public School 131, at Fort Hamilton avenue and 44th street, three stories in height, with 20 rooms and an assembly

room, is costing \$6,625 per classroom, while the four-story, 28 classroom and assembly room building, Public School 136, Fourth avenue and 40th street, is costing only \$5,091 per classroom, a gain of \$1,534 per classroom, or a saving on a 20-room building of an amount sufficient to furnish accommodations for three hundred more pupils.

Some little light might be shed upon this question of difference in cost of buildings in the two boroughs by erecting one or more buildings in Brooklyn from the same plans and specifications used for buildings in Manhattan and The Bronx.

The discrepancy in cost is worthy of serious consideration, as it is manifest that a saving in cost should and can be effected, and it is idle to suppose that we can ever return to the low prices for labor and materials or to the building of non-fireproof schools, permitted under the conditions prevailing prior to consolidation.

The requirements of the present Building Law as to construction and plumbing, while greatly increasing the cost of school buildings over that required by the old law, are yet no more stringent than they should be, and I am of the opinion that the reduction in cost can best be met if the School Board for Brooklyn will not require the erection of three-story buildings and will accept modifications of the floor plans and of the architectural requirements as have heretofore obtained.

Respectfully,

(Signed) C. B. J. SNYDER,
Superintendent of School Buildings.

REPORTS AND RESOLUTIONS OF STAND-
ING COMMITTEES.

By Mr. Sullivan :

The Committee on Finance respectfully reports that the sum of two thousand dollars was specifically included and appropriated in the Budget of the City of New York for the year 1900, and that a similar sum was specifically included and appropriated in the Budget of the City of New York for the year 1901, for high schools in the Borough of Brooklyn, as prerequisite to the allowance of a similar sum from the Literature Fund distributed by the Regents of the University of the State of New York to high schools, to be expended for high school purposes. Inasmuch as the By-Laws of the Board of Education provide that "the special high school fund shall be administered by the several boroughs, and be expended in the manner provided by law," your Committee recommends for adoption the following:

Resolved—That the sum of two thousand dollars which was specifically appropriated among the funds for the support of the public schools of the City of New York for the year 1900, to be expended solely in purchasing books and apparatus, approved by the Regents, for high schools in the Borough of Brooklyn, be and is hereby apportioned among the several high schools in this borough as follows:

Girls' High School	\$500 00
Boys' High School	500 00

DEAR SIR:

I beg to advise you that at a meeting of the Board of Education held on May 22, 1901, notice was received from the

Secretary of the Commissioners of the Sinking Fund of the adoption of resolutions relating to the Borough of Brooklyn, as follows:

(b) Authorizing a renewal of the lease of premises No. 84 Prospect avenue, for one year from July 1, 1901, at a rental of \$330.

A communication was received from the Corporation Counsel, stating that there is no legal objection to the transfer of any part of the surplus of the General School Fund to meet the deficiency in the General School Fund of another borough, provided (1) that the School Board approves, (2) that the transfer is of funds of the same fiscal year, and (3) that the Board of Estimate and Apportionment approves.

A communication was received from the Corporation Counsel, transmitting a certified copy of the report of the Commissioners of Estimate in the matter of acquiring title to school site at Henry and Rapelye streets, Borough of Brooklyn, together with a certified copy of an order of the Supreme Court, bearing date May 8, 1901, and filed and entered in the office of the Clerk of the County of Kings on May 14, 1901, confirming said report and taxing the costs and expenses of the proceedings other than the expenses incurred by the city for expert witnesses and searches; the awards amounting to \$26,100, and the costs, etc., being taxed at \$662.20, said awards bearing interest at the rate of 6 per cent. per annum from the date of the vesting of title in the city to said premises, to wit, April 3, 1901, to the date of payment thereof.

BOROUGH OF BROOKLYN,

June 4, 1901.

*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

I desire most respectfully to direct your attention to the conditions that obtain in School No. 69, as set forth in one of the inspection reports submitted to you this afternoon.

I believe—nay, I am sure—that the children in the said school are suffering from these conditions, physically, mentally and morally, and that their well being demands that they should be educated under better ones. Indeed, I believe that as things are, they are practically growing up without any education worth mentioning.

I, therefore, respectfully recommend that School No. 69 be abolished at the close of the present term.

Yours very respectfully,

EDWD. G. WARD.

Superintendent of Schools.

Mr. Thompson moved to refer the communication to the Joint Committee on Teachers and Local Committee of Public School No. 69.

The motion was agreed to.

From the Borough Superintendent of Schools:

BOROUGH OF BROOKLYN,

June 4, 1901.

*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

For a long time I have had some reason to believe that among the girls attending the public schools of this Borough, truancy prevails to a sufficient extent to constitute a serious evil.

As parents are not willing to admit to men, either principals or attendance officers, that their daughters play truant, I am not in a position to cope with the evil.

To enable me to investigate the extent to which it exists, as well as to devise plans whereby it may, as far as possible,

be corrected, it is necessary that I have the assistance of competent women.

I, therefore, respectfully request that you authorize me to nominate, at the September meeting, for appointment for a period of three months, two female attendance officers.

Yours very respectfully,

EDWD. G. WARD,
Superintendent of Schools.

Mr. McLean moved to refer the communication to the Joint Committee on Attendance and Finance.

The motion was agreed to.

Yours respectfully,

Referred to the Committee on Buildings.

From the Corporation Counsel:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION-COUNSEL,

NEW YORK, May 10, 1901.

HON. CHARLES E. ROBERTSON,

*President, School Board for the
Borough of Brooklyn.*

DEAR SIR:

I have received a communication from Edward G. Ward, Superintendent of Schools for the Borough of Brooklyn, dated November 10, 1900, of which the following is a copy:

"The Board of Superintendents of this borough is
"encountering very serious difficulties in the matter of
"approving under Chapter 751 of the laws of 1900, com-
"monly known as the Davis Law, the service of old
"teachers in cases wherein the said service for one rea-
"son or another could not be approved last summer.
"To solve these difficulties, I am obliged to apply to
"you for answers to the following questions:

"1. Does the provision that no teacher shall receive
"a salary greater than that fixed for the seventh year
"of service; unless and until the service of said teacher
"shall have been approved, and the provision that no
"teacher shall receive a salary greater than that fixed
"for the twelfth year of service unless and until the
"service of the said teacher shall have been approved,
"necessarily restrict approvals of terms of seven and
"twelve years?

"2. Assuming (what I do not expect) that the fore-
"going question will be answered in the affirmative,
"how shall the salary year of a teacher who has served
"eleven years, in an acceptable manner, but has neces-
"sarily been approved for but seven, be determined?

"3. Can a Board of Superintendents that has failed
"to approve or has disapproved the service of a teacher,
"afterward approve such service, and if it can, how soon
"after the failure to approve, or after the disapproval,
"may the said Board approve the said service?

"4. If a Board of Superintendents has refused to "approve the service of a teacher who has served for "twelve years or more, must the said Board, later in "approving the said service, confine its approval to "seven years, or can it approve for the full term of service?"

"As delay in obtaining your rulings on the points "contained in the foregoing questions will involve delay in the completion of our work, and consequent "hardship to the teachers, I beg that you will give me "the rulings sought at the earliest possible moment."

I communicated with William H. Maxwell, Esquire, City Superintendent of Schools, in regard to the questions raised by the letter of Mr. Ward. Mr. Maxwell wrote me under date of January 16, 1901, giving what he considered the facts relating to the subject matter and his views upon the questions involved. I furnished a copy of said letter of Mr. Maxwell to Mr. Ward and received a communication from Mr. Ward, dated February 5, 1901, in which he gave me a statement of the facts as he understood them, bearing on the questions, and also a reply to Mr. Maxwell's letter of January 16, 1901.

Mr. Maxwell, in his letter of January 16, 1901, among other things, states as follows:

"In the first place, I think it well to state the occasion or cause of Mr. Ward's calling upon you for an "opinion. The Board of Education, by its by-laws, "adopted last July, provided that a commission should "be organized, consisting of the City Superintendent "of Schools and the Borough Superintendent of Schools, "who should issue certificates for all teachers in the "system, containing the following information:

"(a) The years of outside experience with which "the teacher was credited.

"(b) The years of experience the teacher has had "in the public schools of The City of New York.

"(c) The salary year on May 3, 1900.

"(d) The month during which the annual increase "of salary shall become due.

"You will readily see that these four items cover
 "practically all the cases that have arisen or that are
 "likely to arise under the Davis Law. During the in-
 "ception of this work the commission held several
 "meetings at which several decisions were reached as
 "to the way in which conclusions should be reached
 "in order to complete the certificates required by the
 "Board of Education.

" * * * * *

"The points upon which your opinion will be par-
 "ticularly valuable are the following:

"1. When a Borough Board of Superintendents has
 "decided that a teacher's service is not fit and meritori-
 "ous, can said Board reverse its decision before the
 "next anniversary of the beginning of the teacher's
 "service comes around?

"2. Is 'laying over' or deferring decision as to
 "whether teacher's service is fit and meritorious equiva-
 "lent to a decision in the negative?

"3. In case a teacher's service has been disapproved
 "and that teacher's salary has, in consequence, been
 "fixed as the salary of the seventh year; and, in case
 "the teacher's service is afterwards formally approved,
 "and, in case said teacher has had nine, or ten, or twelve
 "years experience, or any other number of years greater
 "than eight, at what year shall she be rated? Shall she
 "be rated as of the year of her actual experience, or
 "shall she be rated as of the eighth year, on the ground
 "that she has acquired only during the year preceding
 "approval, that degree of skill which may reasonably
 "be expected from a teacher who has concluded seven
 "years of service? * * * "

Under date of November 15, 1900, and five days after the
 date of Mr. Ward's letter to me, Mr. Maxwell wrote to Mr.
 Ward a letter, of which the following is a copy:

"With regard to the effect of the approval by a
 "Borough Board of Superintendents of a teacher's work
 "as fit and meritorious, I beg to say that I am advised

"by Mr. Stern, Chairman of the Committee on By-laws
"and Legislation, as follows:

"1. In case the teacher's service is not approved as
"fit and meritorious for the seventh year or the twelfth
"year, approval cannot be given until one calendar year
"shall have elapsed since the date at which such ap-
"proval might formerly have been given.

"2. In case the teacher's work has not been
"approved as fit and meritorious for the seventh
"year or the twelfth year, and is afterwards ap-
"proved on any anniversary of the month on
"which increase of salary may become due, said
"teacher's salary shall at once be advanced to
"the year at which her years of service entitle her
"to be rated. For example: If a teacher who, on June
"1, 1900, had thirteen years of service, but whose ser-
"vice was not approved on that date, should, on June 1,
"1901, receive formal approval, her salary would at once
"be advanced to the fourteenth year.

"Should you see any objection to this ruling, kindly
"inform me at once, and I shall call a meeting of the
"commission appointed by the By-laws of the Board
"of Education to act upon such matters."

Section 1901 of the Greater New York Charter as amended
by Chapter 751 of the Laws of 1900, commonly known as the
Davis Law, among other things, provides as follows:

"The Board of Education shall have power to adopt
"by-laws fixing the salaries of the borough and asso-
"ciate superintendents, and all members of the super-
"vising and teaching staff, and the salaries of all princi-
"pals and teachers shall be regulated by merit, grade
"of class, length of service, experience in teaching, or
"by such a combination of these considerations as said
"board may deem proper. Such by-laws shall establish
"a uniform schedule of salaries for the supervising and
"the teaching staff throughout all boroughs, which
"schedule shall provide for an equal annual increment of
"salary of such an amount."

Provision is made fixing a minimum salary and a minimum annual increment, and then provides as follows:

"Provided, however, that none of the aforesaid members of the supervising and the teaching staff of any "of the elementary schools shall receive a salary greater "than that fixed for the seventh year of service unless "and until the service of any such member shall have "been approved after inspection and investigation as "fit and meritorious by a majority of the Board of "Superintendents of the borough in which he or she is "employed; that none of the aforesaid members of the "supervising and the teaching staff of any of the elementary schools shall receive a salary greater than "that fixed for the twelfth year of service unless and "until the service of any such member shall have been "approved after inspection and investigation as fit and "meritorious by a majority of the Board of Superintendents of the borough in which he or she is employed; * * * and the respective boards of "superintendents of the boroughs shall approve or disapprove the service of the aforesaid members of the "supervising and the teaching staff in their respective "boroughs within forty days before the date on which "said members shall, respectively, become eligible to "the increases of salaries conditioned upon the approval "of said service. * * * No salary now paid to "any member of the supervising and the teaching staff "of any of the public schools in the City of New York "shall be reduced by the operation of this section and the "aforesaid equal annual increment for each class or "grade of the supervising and the teaching staff of said "public schools shall be uniform throughout each class "or grade, and each of said persons shall at once receive all the emolument in accordance with the above "schedule of minimum salaries to which said person is "entitled by reason of merit, of experience and of grade "of class taught."

I am of the opinion that in case the service of a teacher has not been approved as fit and meritorious within forty

days before the date on which said teacher becomes eligible to the increase of salary, conditioned upon the approval of such service, that such approval cannot be given until one calendar year shall have elapsed since the date at which such approval might have been given.

2d. In my opinion, in case the service of a teacher has not been approved as fit and meritorious for the seventh year or the twelfth year, and is afterwards approved on any anniversary of the month on which an increase of salary may become due, the said teacher's salary should at once be advanced to the year at which the years of service entitled said teacher to be rated. For example, if a teacher who, on June 1, 1900, had thirteen years of service, but whose service was not approved on that date, should on June 1, 1901, receive formal approval, the salary of said teacher should at once be advanced to the fourteenth year.

3d. In my opinion, when a Borough Board of Superintendents has decided that a teacher's service is not fit and meritorious, the said Board cannot reverse its decision until the next anniversary of the beginning of the teacher's service comes around.

4th. In my opinion, in order for a teacher to become entitled to the increased salary, it is necessary to obtain the affirmative action of the Borough Board of Superintendents. In other words, the increase of salary is conditioned upon the approval of the service, and unless that approval is obtained, no increase can be granted. And if a Board of Superintendents has failed to approve the service of a teacher within the prescribed time, it cannot thereafter approve of such service until one calendar year shall have elapsed since the date at which such approval might have been given.

I think the foregoing answers fully all the questions which have been propounded.

I have sent a copy of this opinion to the President of the Board of Education, and also to Mr. Maxwell and Mr. Ward.

Yours respectfully,

JOHN WHALEN,

Corporation Counsel.

By Mr. Greene :

The Committee on Music respectfully reports that at a meeting of the Committee on Music held on May 21, 1901, the Director of Music presented a communication from the eight teachers of music in the employ of this School Board whose licenses the City Superintendent claims are not permanent, but subject to his action for renewal, as follows :

BROOKLYN, N. Y., May 20, 1901.

*To the Committee on Music
of the School Board.*

GENTLEMEN :

We believe that the recent decision of the Supreme Court in the matter of O'Donnell and others against Cook assures

the permanency of our licenses as teachers of music in the Brooklyn Public Schools. Nevertheless, Associate Superintendents of this borough, acting by the direction of the Borough Superintendent and under the peremptory order of the City Superintendent have examined our work while we were in the active conduct thereof, and against our respectful protest, for the apparent purpose of the renewal of licenses which have been held by the Court in the above case as in full force, and to be so recognized by the City Superintendent, and irrevocable except by the State Superintendent for cause. We therefore respectfully beg to be permitted to transmit through you to the proper educational authority our earnest protest against any examination or inspection for the purpose of the renewal of our licenses together with our urgent request that such action will be taken as will insure to us, in the performance of our duties as music teachers, the protection, and the recognition by the City Superintendent, of our licenses and of our position as teachers of music, not alone in the elementary, but in all the public schools of Brooklyn, which has been decreed by the Supreme Court of the State of New York.

Very respectfully,

JULES SERGE JOHANNES,
EUGENE C. MORRIS,
FREDERICK J. O'BRIEN,
MARGHERITA B. PIRETTI,
JAMES H. DOWNS,
FRANK DOWNEY,
MARY C. MULLIGAN,
M. NELLIE MULLIN.

In connection therewith the Committee adopted the following resolution:

Resolved—That the Chairman of this Committee be requested to present the protest of the music teachers to the Board of Education.

The Committee would further report for the information of this Board that at a meeting of the Board of Education held May 22, 1901, the Chairman of the Committee presented the aforesaid protest, with the accompanying communication.

"HON. MILES M. O'BRIEN,

"President of the Board of Education.

"DEAR SIR:

"Pursuant to the direction contained in a resolution adopted by the Committee on Music of the School Board of the Borough

of Brooklyn, a copy of which resolution is hereto appended, I beg to present to you for consideration by the Board of Education the following communication and protest signed by a number of teachers of music in the public schools of the Borough of Brooklyn.

"Very respectfully yours,

"(Signed) JOHN GREENE,

"Chairman of the Committee on Music of Brooklyn School Board, and delegate to the Board of Education."

The documents were read, ordered to be printed in the minutes and referred to the Committee on By-laws and Legislation.

On May 25, 1901, each of the eight music teachers who had signed the protest received a notification, dated May 22, 1901, but postmarked May 24, 1901, from the City Superintendent of Schools, as follows:

"I have the pleasure to inform you that I have renewed your temporary music license for the (1st or 2d) time, for one year from (Feb. 7, 14, and April 15, 1901)."

This notification has in each case been returned to the City Superintendent by the respective teachers with the endorsement:

"Respectfully returned, see letter attached" which letter is as follows:

BROOKLYN, NEW YORK, May 27, 1901.

MR. WILLIAM H. MAXWELL,
City Superintendent of Schools.

SIR:

With reference to your notification dated the 22nd instant, postmarked the 24th instant, and herewith enclosed, I beg to say that there is evidently an error. I am not, nor have I ever been, in possession of any "Temporary Music License," and I decline to be placed in the class of those whose licenses require to be renewed, or to accept a renewal to which I am clearly not entitled and of which I have no need.

Respectfully,

JULES SERGE JOANNES,
EUGENE C. MORRIS,
FREDERICK J. O'BRIEN,
MARGHERITA B. PIRETTI,
JAMES H. DOWNS,
FRANK DOWNEY,
MARY C. MULLIGAN,
M. NELLIE MULLIN.

The Committee begs further to report that the matter has been considered by the Committee on By-Laws and Legislation and that a report in reference to it will be presented at the next meeting of the Board of Education.

All of which is respectfully submitted.

JOHN GREENE,
THOS. CACCIOLA,
JAMES WRIGHT,
GEORGE FREIFELD,

Resolved—That Section 63, sub-division b, of the By-Laws be amended so as to read as follows:

b. Absence from duty of any member of the teaching force may be excused by this Committee on application, for any of the following causes:

1. Serious personal illness.
2. Death in the teacher's immediate family.
3. Compliance with the requirements of a court, of the Board of Examiners, of the Borough Superintendent, of the City Superintendent, or of a Committee of this Board or the Board of Education.
4. Quarantine established by the Board of Health.

The failure of a class teacher to notify her principal of a coming absence sufficiently early to enable him to procure a substitute, unless satisfactorily explained, shall be regarded as good cause for refusal to excuse her absence.

Every application for excuse of absence on the ground of serious personal illness must be accompanied by a physician's certificate, and approved in writing by the principal or the director concerned, and by the chairman of the proper committee or by a majority thereof. The said application must state the length of the teacher's service and his or her record for absence and lateness during the three terms immediately preceding the absence. No such application shall be considered unless it is filed with the Secretary of the School Board on or before the 10th day of the calendar month next succeeding the month in which the absence occurred.

Absence under sub-division 1 shall not be excused for a period longer than forty-five school days in any school year.

No exhibition of the pupils of any school shall be permitted elsewhere than in the school building, unless the consent of the Board shall have first been obtained, and in no case shall any charge for admission be made.

SECTION 417. The last school day preceding the Fourth of July and the Twenty-second of February in each year shall be observed in all the schools by exercises appropriate to the occasion.

SECTION 418. During school hours, including recesses, teachers shall devote themselves exclusively to the instruction and supervision of their classes in the class-rooms or yards. They shall not engage in reading, writing, needle-work or other work during the said hours, except in the discharge of the duties of the class. Teachers shall remain during the intermission at noon when requested to do so by the principal.

SECTION 419. Each teacher shall keep, in a class-book provided for the purpose, a record of the punctuality and attendance of her pupils.

SECTION 421. The principal of every school shall transmit to the Borough Superintendent of Schools, at the close of each week, a list of the children, if any, between the ages of 8 and 16 years, that such principal shall have reason to believe have left the school for the purpose of engaging in any employment. a. The ratings made at the end of any month after the first shall summarize all previous ratings. Those made at the end of the fifth month, therefore, shall represent the pupil's standing for the term.

b. In grammar grades, ratings shall be made in each of the following subjects wherever it is taught: English; Mathematics and Geography and Science; History, Geography, Civil Government; and Drawing. e. Each pupil's monthly report card shall become his property at the end of the term or when he leaves school.

f. A card containing the ratings to date shall be issued to each child in any grade below the fourth primary, when he leaves to enter another public school.

g. When a principal admits a pupil from another public school, he shall place said pupil in the grade indicated by the report card.

DEAR SIR:

I beg to enclose herewith certified copy of resolution adopted by the Board of Education on June 12, 1901, authorizing the several School Boards to prepare the payrolls of teachers for the months of June and July in full, without deducting the amount of absences therefrom, said absences to be deducted from the payrolls of the next succeeding month.

BOARD OF EDUCATION,

NEW YORK, June 13, 1901.

GEORGE G. BROWN, Esq.,

*Secretary, School Board,
Borough of Brooklyn.*

DEAR SIR:

Enclosed herewith please find certified copies of reports and

resolutions adopted by the Board of Education on June 12, 1901.

1. Relative to the protest of certain music teachers in the Borough of Brooklyn against any examination or inspection for the purpose of a renewal of their licenses, etc.

2. Authorizing the appointment of a watchman in the Truant School for the Borough of Brooklyn, at an annual salary of \$400.

Respectfully,

A. E. PALMER,

Secretary, Board of Education.

Enclosure.

To the Board of Education:

The Committee on Supplies respectfully reports that it has approved of the request of the School Board for the Borough of Brooklyn that a watchman be appointed for the Truant School, at a salary of \$400 per annum, and submits for adoption the following resolution:

Resolved, That authority be, and is hereby, granted for the appointment of a watchman for the Truant School, Borough of Brooklyn, at an annual salary of \$400.

A true copy of report and resolution adopted by the Board of Education on June 12, 1901.

A. E. PALMER,

Secretary, Board of Education.

To the Board of Education:

The Committee on By-Laws and Legislation, to which was referred the communication of Hon. John Greene, addressed to the President of the Board of Education, relative to the protest of certain music teachers in the Borough of Brooklyn against any examination or in-

spection for the purpose of the renewal of their licenses, etc. (see Journal, pages 587-589), would state that it has carefully considered the matter, and respectfully reports that inasmuch as all the persons holding the licenses referred to in the above-mentioned protest, which were issued prior to consolidation, and which it is claimed are permanent, are now holding positions as music teachers, and are receiving salaries in accordance with the schedule provided for such teachers, and inasmuch as no attempt has been made either to nullify their licenses or interfere with their positions, there is therefore no actual case pending which requires the determination of the questions asked to be considered in the protest submitted to this Board.

The following resolution is submitted for adoption:

Resolved. That the Committee on By-Laws and Legislation be, and it is hereby, discharged from further consideration of the above-mentioned communication of Hon. John Greene, referred to it by the Board of Education on May 22, 1901.

A true copy of report and resolution adopted by the Board of Education on June 12, 1901.

BOARD OF EDUCATION,

NEW YORK, June 27, 1901.

GEORGE G. BROWN, ESQ.,

Secretary, School Board,

for the Borough of Brooklyn.

DEAR SIR:

Enclosed herewith please find certified copy of report and resolutions adopted by the Board of Education at the meeting held on June 26, 1901, amending paragraph 3 of Section 74 of the By-Laws of the Board of Education, etc.

Respectfully,

A. E. PALMER,
Secretary, Board of Education.

Enclosure.

To the Board of Education:

WHEREAS, it has been made known to the Committee on By-Laws and Legislation that the method of paying

teachers in the Borough of Brooklyn, by which the plan of payment in ten annual installments is changed to the plan of twelve annual installments at the end of each teacher's salary year in 1901, is resulting in slight over-payments to some teachers and under-payments to other teachers, as compared with teachers of corresponding rank and years of experience in the other Boroughs; and

WHEREAS, the plain intent of Chapter 751 of the Laws of 1900 is that all teachers of corresponding rank and years of experience in all Boroughs shall be paid after May 3, 1900, on precisely the same basis; therefore your Committee on By-Laws and Legislation offers for adoption the following resolution containing an amendment to paragraph 3 of Section 74 of the By-Laws of the Board of Education, to take effect on July 15, 1901:

Resolved. That paragraph 3 of Section 74 of the By-Laws of the Board of Education be amended by striking therefrom the following words:

"provided that in the Borough of Brooklyn every teacher appointed prior to September 10, 1900, shall continue to be paid in ten equal installments from the beginning of his or her salary year in 1900 until the conclusion of his or her salary year in 1901"

so that said paragraph shall read as follows:

"3. Teachers' annual salaries shall be paid in twelve equal installments, one installment for each month in the calendar year. The installment for July shall be paid, as nearly as may be, on or before the 30th of June of each year. The installment for August shall be paid, as nearly as may be, on or before the fifteenth day of the following September. In case of a teacher who is dismissed from the service for cause, salary shall cease from the day of suspension from service. In case a teacher's license is not renewed, salary shall cease with the termination of actual service."

Your Committee further offers for adoption the following resolution:

Resolved. That, in the case of each principal and teacher appointed prior to May 3, 1900, in the Borough of

Brooklyn, and in service on that date, a calculation shall be made by the proper financial officers, showing the amount due to each such principal and teacher from May 3, 1900, up to September 30, 1901, on the basis of one-twelfth of the annual salary due for each calendar month between the above-mentioned dates, and also the amount of money that has actually been paid to each such principal and teacher between May 3, 1900, and September 30, 1901; and that in case any such principal or teacher has received more or less than the actual amount due as determined by the above-mentioned calculation, a final adjustment shall be made in the payment for the month of September, 1901.

*To the Honorable, the School Board

GENTLEMEN:

I have this morning received from the Principals' Association a letter of which the following is a copy:

BROOKLYN, July 1, 1901.

"SUPT. EDWARD G. WARD,
School Board,
No. 131 Livingston St., Brooklyn, N. Y.

DEAR SIR:

Herewith please find communication to the School Board asking for clerical assistants in the schools. The principals' association respectfully requests that you will have the kindness to present this petition to the School Board at its next meeting.

We feel that your personal knowledge of the condition described and of the needs mentioned, together with your desire to afford the relief sought will lead you to support the request. We will much appreciate your assistance.

Yours truly,

C. O. DEWEY,
LYMAN A. BEST,
CHAS. FLEMMING,
C. S. HASKELL,
WM. MC ANDREW,
JAS. J. MC CABE,
ELMER POULSON,
DE FOREST A. PRESTON,
LA SELLE H. WHITE,

Committee Brooklyn Principals' Association."

In accordance with the request contained in this letter, I herewith present to you the petition to which it alludes. In presenting this petition, I have to say that I sympathize strongly with the Principals in their desire for clerical assistance. Under the existing system of school administration the clerical work in the schools has increased to an enormous extent, and the Principals in performing their work are neces-

sarily slighting duties of a much higher grade. I think, however, that should you grant the request made by the Principals, some provision should be made that in each case the person employed as a clerical assistant should do some part of the work of substituting for absent teachers. I respectfully recommend that the matter be referred to the Committee on Rules to prepare an addition to the By-Laws providing for the assistance which the Principals desire.

Very truly yours,

EDWD. G. WARD,
Superintendent of Schools.

In connection therewith Mr. Kiendl offered the following:

Resolved—That the Committee on Rules be and hereby is requested to present at the next meeting of this Board, an amendment to the By-Laws authorizing under proper limitations the employment of clerical assistants to principals in the schools of this Borough.

The resolution was adopted.

From the Borough Superintendent of Schools:

BOROUGH OF BROOKLYN, July 2, 1901.

*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

On behalf of the Borough Board of Superintendents, I respectfully recommend that the following changes be made in the grades of established schools at the beginning of the fall term:

1. Public School No. 56, establishment of a Sixth Grammar grade.

2. Public School No. 63, discontinuance of a Fourth Grammar grade and transfer of the one class of this grade with its teacher to Grammar School No. 84.

3. Public School No. 70, establishment of a First Grammar grade.

4. Public School No. 93, establishment of a Fourth Grammar grade.

5. Public School No. 109, establishment of a Fourth Grammar grade.

6. Public School No. 114, establishment of a Second Grammar grade.

7. Public School No. 118, establishment of a Second Grammar grade.

8. Public School No. 125, establishment of a Sixth Grammar grade.

Very truly yours,

EDWD. G. WARD,
Superintendent of Schools.

In connection therewith Mr. Bendernagel offered the following:

Resolved—That the several recommendations made by the Borough Superintendent of Schools in his letter of this date for changes in the grading of established schools, be and the same are hereby adopted, and that the Local Committees concerned, are authorized to carry the same into effect.

The resolution was adopted.

ARTHUR S. SOMERS,

CHAS. C. WISE,
FRANK L. BABBOTT,
THOMAS J. FARRELL,

The resolution was adopted.

By Mr. Wise:

Resolved—That the bill of Edward G. Ward, Borough Superintendent of Schools, for carfare of attendance officers for the month of June, 1901, amounting to forty dollars and eighty cents, be referred to the Committee on Finance, to approve the same if found correct.

The resolution was adopted.

By Mr. Wise:

BOROUGH OF BROOKLYN, N. Y., July 1, 1901.

*To the School Board,
of the Borough of Brooklyn.*

GENTLEMEN:

In the public press of June 22d and 23d there appeared several articles in which it was asserted that the boys in the

Truant School had recently been subjected to great hardship. The leading statements in these articles may be summarized as follows:

1. That bread and molasses constituted a truant school diet.
2. That many boys have been without beds and compelled to sleep on the floor.
3. That for fourteen days the boys were without sufficient food.
4. That, from a sanitary and hygienic standpoint, the building is in a deplorable condition.

These articles attracted a great deal of attention and caused much adverse criticism. The Attendance Committee, therefore, deemed it necessary, without awaiting instructions, to make an investigation and determine the truth or falsity of the statements. They held two meetings, one on the evening of the 25th day of June, and the other on the evening of the 28th day of June, at which they questioned every person employed in the said Institute who could be supposed to know the facts in the case. The testimony of each witness was taken down in shorthand and afterward reduced to writing. The Committee is ready to produce it in detail if so directed. There were present at each meeting the following members of the Committee: Charles C. Wise, Chairman; Thomas J. Farrell, Thomas Cacciola, George W. Donohue and James F. Bendernagel; besides President Robertson of the School Board and Borough Superintendent Ward. At the second meeting, Associate Superintendent Campbell was also present. The witnesses that appeared were George W. French, principal; Misses Brady and Bohen, and Mr. Spurdle, teachers; Messrs. French, Sackman and Greenough, caretakers; Mrs. Gillis, orderly; and Miss Andrus, cook—in all, nine persons. To present the evidence in full would add many pages to this report. The Committee therefore believe it will be sufficient to give the substance of it.

In the first place, then, as regards the most important charge, that the boys were fourteen days without sufficient

food, the testimony of every one of the aforementioned persons shows that there was sufficient food *at all times*, and that there was no indication whatever of any suffering for want of food on the part of any child in the Institution. Furthermore, it shows that such shortage of supplies as there was existed for only four days of the fourteen during which the papers asserted the children were suffering for food, and that this shortage was mainly confined to fresh meat, the deficiency, moreover, being partly supplied by salt pork, ham, bacon, and canned salmon. As a further evidence that there was no foundation for the statement that the children suffered from an insufficiency of food, the Committee presents the following statement, made by the principal, of supplies on hand *at the end* of the fourteen-day period above mentioned:

10 lbs. salt pork,	10 lbs. cheese,
20 lbs. bacon,	1 bbl. flour,
10 doz. eggs,	1 case canned peaches,
30 lbs. salt cod fish,	12 cans canned salmon,
10 lbs. barley,	20 quarts dried lima beans,
1 box corn starch,	1-3 tub butter,
6 1-lb. packages macaroni,	253 lbs. fresh bread,
10 lbs. rice,	28 qts. fresh milk,
½ chest tea,	10 gals. molasses,
1-3 bbl. granulated sugar,	2 bushels salt,
20 quarts white beans,	2 doz. lemons,
1 small box chocolate,	4 bottles vanilla extract,
10 lbs. lard,	6 bottles lemon extract.

In regard to the charge conveyed in the heading, that bread and molasses has been a truant home diet, the evidence showed that the boys had bread and molasses *one evening* for supper during the period mentioned, and that they had this, not because of any shortage, but because it is customary for them to have a supper of bread and molasses once in every two or three weeks.

The Committee believes that in no better way can it show the substantial falsity of the newspaper articles referred to than by arranging in a column several statements attributed

therein to the principal, and in a second column, parallel to the first, what the evidence shows, as to each of these so-called statements.

*Alleged Statements by the
Principal.*

What the Evidence Shows.

- | | |
|--|---|
| 1. General statement, that there was shortage of supplies for fourteen days. | 1. Shortage in a <i>few</i> supplies. for <i>four</i> days only. |
| 2. For fourteen days, no meat. | 2. For <i>four</i> days, no <i>fresh</i> meat, but sufficient salt pork, ham, bacon, and canned salmon to largely supply the deficiency. |
| 3. For fourteen days no milk. | 3. 28 quarts of fresh milk every day. |
| 4. For fourteen days no potatoes, no farina, no oatmeal. | 4. During the four days of partial shortage, hominy once, oatmeal once, corn starch pudding twice, and boiled rice with raisins twice, all in sufficient quantity to satisfy every boy. |
| 5. "Absolutely nothing but bread and syrup, and mighty little of that." | 5. Syrup only once during the four days, and that in its regular order; 200 pounds of fresh bread every single day. |

Regarding the statement that many boys were without beds and were compelled to sleep on the floor, the Committee would report that, though six boys were without *bedsteads*, no boy was without a *good bed*, and that there was no necessity of any boy being without a bedstead, since there was an abundant supply in the building.

Regarding the last charge, that the building is in a deplorable condition from a sanitary and hygienic standpoint,

the Committee have to report that they have long recognized the inadequacy of the building to supply the demands made upon it, and that they last February requested your honorable body to make application to the Board of Education for a new building of suitable size and proper equipment.

Respectfully submitted,

CHAS. C. WISE,
THOMAS J. FARRELL,
THOS. CACCIOLA,
GEORGE W. DONOHUE,
JAMES F. BENDERNAGEL,
Committee.

Mr. Wise moved that the report be received and printed in the minutes.

The motion was agreed to.

b. Absence from duty of any member of the teaching force may be excused by this Committee on application, for any of the following causes:

1. Serious personal illness.
2. Death in the teacher's immediate family.

3. Compliance with the requirements of a court, of the Board of Examiners, of the Borough Superintendent, of the City Superintendent, or of a Committee of this Board or the Board of Education.

4. Quarantine established by the Board of Health.

The failure of a class teacher to notify her principal of a coming absence sufficiently early to enable him to procure a substitute, unless satisfactorily explained, shall be regarded as good cause for refusal to excuse her absence.

Every application for excuse of absence on the ground of serious personal illness must be accompanied by a physician's certificate, and approved in writing by the principal or the director concerned, and by the chairman of the proper committee or by a majority thereof. The said application must state the length of the teacher's service and his or her record for absence and lateness during the three terms immediately preceding the absence. No such application shall be considered unless it is filed with the Secretary of the School Board on or before the 10th day of the calendar month next succeeding the month in which the absence occurred.

Absence under sub-division 1 shall not be excused for a period longer than forty-five school days in any school year.

The resolution was adopted for the second time.

SECTION 407. The schools shall open at 9 A. M. and close at 3 P. M. There shall be an intermission of one hour at noon, during which all pupils shall be allowed to go to their homes.

a. When, however, it shall appear from a special written report presented to a Local Committee by the Borough Superintendent of Schools that any school is unable to accommodate the pupils applying for admission and that such pupils cannot find seats in any school within reasonable distance from their homes, the Local Committee may, with the approval of the Committee on Teachers and the Board, extend the school hours in as many class-rooms as may be necessary, to 4.30 P. M., and employ two teachers to teach two distinct classes in each such room; one from 8.30 A. M. to 12.30 P. M., and the other from 12.30 to 4.30 P. M.

SECTION 418. During school hours, including recesses, teachers shall devote themselves exclusively to the instruction and supervision of their classes in the class-rooms or yards. The recommendations of the Committee were
adopted.

In the matter of the charges preferred against Sarah A. Currie, teacher in Public School No. 133, referred to the Committee on Teachers on June 4, 1901 (printed minutes pp. 487-8), Mr. Bender-nagel, Chairman of the Committee, submitted the following:

FINDINGS OF FACT.

I. At divers and various times in or about the month of January, 1901, in the presence and hearing of A. J. Dower, M.D., a member of the said School Board and Chairman of the Local Committee of Public School No. 133, the said Currie did deliver a religious discourse to the pupils then assembled in the class-room, under the charge of the said Currie, during the regular school hours, in said Public School No. 133; which discourse, although incoherent and irrational, was wholly limited to an attempt to discuss with the said pupils religious and sacred subjects, far beyond their comprehension or understanding; that the said pretended religious discourse was not, and is not, one of the studies prescribed by the said Borough School Board for and to the said class, and was not, and is not in the Course of Studies pursued in the said class or in the Public Schools of the Borough of Brooklyn, as provided by the said By-Laws; that the said Dower remonstrated with the said Currie and admonished her that the said pretended religious discourse, then being delivered by the said Currie to the said pupils as aforesaid, was not one of the subjects or studies to be taught to, or discussed in the presence of, the pupils in said class, and requested the said Currie forthwith to desist and to confine herself to the studies and subjects prescribed by the said School Board of the Borough of Brooklyn for the said class; that the said Currie refused to desist from continuing the said religious discourse, but, on the contrary, continued in, and insisted upon, delivering the said religious discourse, at the same time saying to said Dower: "I am a direct representative of God, and the children are God's chil-

dren, and the school buildings are God's, and I and the school are perfectly independent of you and the Board of Education."

II. At the said times and place hereinbefore mentioned, during the regular school hours, the said Currie, while in her class-room in Public School No. 133 in the said Borough of Brooklyn, held in her hand a large roll of paper, addressed to "The Honorable School Board of the Borough of Brooklyn," in which said Currie charged inefficiency and incompetency against the Principal and Head of Department of said Public School No. 133, and in which the said Currie also made charges of persecution against her by the said Principal and Head of Department, and in which, between the said charge of inefficiency and persecution, there were interlarded many quotations from the Holy Scriptures; that said Currie then and there, against the protest of said Dower, read copiously and continuously from the said large roll of paper to the pupils in the said class.

III. Many complaints have been made by the parents of the pupils in the said class, that the said Currie omits and neglects to teach to the said pupils the subjects and studies prescribed by the said Borough School Board, but that the said Currie insists and persists in delivering to the said pupils pretended religious discourses, in lieu of the said subjects and studies; that the said complaints have resulted in a depopulation and diminution of pupils of and in said class, to the extent of one-half the number thereof.

IV. At various times during the year 1900 and 1901, the said Currie maltreated the pupils in the said class, by laying violent hands upon them and choking them; that charges of said assault against said Currie have been presented to the Local Committee of said Public School No. 133 by the parents of the pupils assaulted as aforesaid.

V. During the years 1900 and 1901, at and in the said Public School No. 133, the said Currie was arbitrary with the

Principal and Head of Department of said Public School, and declined to follow, or abide by, the lawful orders duly given to the said Currie by said Principal and Head of Department; that the said Currie refused to follow the curriculum of studies as laid down by the said Borough School Board, and as indicated to her by the said Principal and Head of Department,

VI. During the year 1901, at the said Borough of Brooklyn, the said Currie attended at the Police Station in said borough situate, and then and there preferred charges of persecution, incompetency and inefficiency against the School Board of the Borough of Brooklyn.

VII. The said Currie is wholly incompetent, and generally inefficient to continue as a teacher in the Public Schools of the Borough of Brooklyn; that her mental faculties are impaired; that her temper is violent; that she is deficient in the use of the English language; that her diction is unsatisfactory and bad; that she is absolutely ignorant of the rules of punctuation; and that she is unable to properly teach any class in the Public Schools of the Borough of Brooklyn in the English language, because of incoherency, inefficiency, and general impairment of her mental and physical faculties.

CONCLUSIONS.

First: That Sarah A. Currie is found guilty of gross misconduct, insubordination, neglect of duty and general inefficiency.

Second: That Sarah A. Currie is not of sound mind.

Third: That Sarah A. Currie be dismissed as a teacher of Public School No. 133 in the Borough of Brooklyn, City of New York, and from the Public Schools of the said City.

A copy of the stenographer's minutes in the matter of the said charges is hereunto annexed and made a part hereof.

Your Committee further report that Charles L. McFettrish, the stenographer employed by your Committee under the aforesaid resolution, be paid the sum of \$38.35, his fair and reason-

able charges for services rendered as stenographer to your Committee, and that a resolution be adopted accordingly.

All of which is respectfully submitted,

JAMES F. BENDERNAGEL,
Chairman of the Teachers' Committee.

ARTHUR S. SOMERS,
HORACE E. DRESSER,
J. RICHARD KEVIN,

In connection therewith Mr. Bendernagel offered the following:

Resolved—That the findings to-day reported to this Board by the Committee on Teachers, in the case of Sarah A. Currie, be and the same are hereby approved.

That in accordance with the recommendations contained in the Committee's report, the said Sarah A. Currie be and hereby is dismissed from the service of this Board, the dismissal to be effective from the date of her suspension, and

That the bill of Charles L. McFetrich be and hereby is referred to the Committee on Finance, to be paid if found correct.

Mr. Bassett moved that the first paragraph of the resolution be amended to read as follows:

Resolved—That the findings to-day reported to this Board by the Committee on Teachers, in the case of Sarah A. Currie, be and the same are hereby approved, except as to the second conclusion of the Committee, viz.: That Sarah A. Currie is not of sound mind.

The motion was agreed to.

The resolution, as amended, was then adopted.

ELECTION OF DELEGATE.

Mr. Cashman moved that the Board proceed to the election of a delegate to the Board of Education in place of John Greene, whose term of office as a member of this School Board expired June 30, 1901.

Herman A. Metz received. 26

GEORGE G. BROWN, Esq.,

Secretary, School Board,

DEAR SIR:

Enclosed herewith please find copy of opinion of the Corporation Counsel relative to the payment of janitors' salaries; also copy of opinion of Justice Gaynor referred to therein.

Respectfully,

A. E. PALMER,

Secretary, Board of Education.

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, July 5, 1901.

HON. MILES M. O'BRIEN,
President, Board of Education.

SIR:

I have received your communication dated June 24, 1901. It reads as follows:

"There has been presented to the Treasurer of the
"Board for payment, a pay-roll for janitor's service
"for the Hall of the Board of Education, for the
"month of May, 1901. Upon this roll appear the
"following names and amounts:

"Francis Higgins, Engineer.	\$100 00
"William Higgins, Assistant Janitor. ...	63 00
"Catherine Ballet, Cleaner.	21 25
"Nora Fagin, Cleaner.	32 50
"Margaret Mahoney, Cleaner.	2 50
"Minnie Callahan, Cleaner.	10 62
"Mary Phillips, Cleaner.	14 37
"Phillip Smithson, Cleaner, Window....	3 75
"Charles H. Knaupp, Cleaner, Window..	7 00
"Catherine Higgins, Janitress.	128 34
	<hr/>
	\$383 33

"Mrs. Catherine Higgins, the Janitress of the
"building, makes the following statement upon the
"face of the pay-roll:

"I hereby certify that the persons whose names
"appear on this pay-roll were employed by me
"during the month of May, 1901, at the rates of
"compensation specified."

"The Secretary of the Municipal Civil Service
"Commission has attached the following certificate
"to the pay-roll:

"I hereby certify that I have examined this pay-roll and that the persons named in such pay-roll have been appointed or employed or promoted in pursuance of law and of the rules made in pursuance of law."

"Mrs. Higgins was appointed Janitress of this building by this Board several years ago at a salary of \$4,600 per annum. Up to May 1, 1901, she received one-twelfth of this amount each month; she employed whatever help was necessary to keep the building in proper condition, and paid such help herself, out of her salary. The names of her helpers never appeared on the pay-roll.

"The name of Mrs. Higgins was placed upon the regular pay-roll for the month of May, with the usual monthly salary allowance. The Municipal Civil Service Commission refused to certify the pay-roll for payment, and directed that the name of each of her assistants should be placed on the pay-roll, with the monthly compensation of each.

"The following communications have been received from the Municipal Civil Service Commission, relating to the payment of Janitors and their assistants:

"MUNICIPAL CIVIL SERVICE COMMISSION,

"New York, May 17, 1901.

"A. EMERSON PALMER, Esq.,

"Secretary, Department of Education.

"DEAR SIR:

"I am directed by the Municipal Civil Service Commission to request from your department a complete list of the employees of the several school janitors, giving in each case the name, address, title of position, character of work performed, amount of compensation and date of appointment. This information should be furnished in reference to all janitors' employees now in the

" 'service throughout the entire city, in order that
" 'a roster of such employees may be prepared for
" 'the purpose of checking and certifying to the
" 'pay-rolls of the department.

" 'Yours respectfully,

" 'LEE PHILLIPS,

" 'Secretary.'

" 'June 4, 1901.

" 'WM. J. ELLIS, Esq.,

" 'Secretary, School Board.

" 'DEAR SIR:

" 'Replying to your inquiry over the telephone
" 'relative to the preparation of the School Jani-
" 'tors' May pay-rolls, I beg to say that the Municipal
" 'Civil Service Commission desires that said rolls
" 'be made out and forwarded to this office in the
" 'form indicated in my letter to Secretary Palmer
" 'under date of May 17th, and that said rolls be
" 'made for one-twelfth of the year instead of one-
" 'thirteenth, and that the names of the Janitors
" 'and their assistants, together with the amount due
" 'to each, be set forth in every instance.

" 'Yours respectfully,

" 'LEE PHILLIPS,

" 'Secretary.'

" 'It may be well to state here that the ruling of
" 'the Municipal Civil Service Commission was in-
" 'tended to apply to the Janitors of the Public
" 'Schools, but the same rule was held to apply to all
" 'janitors in the employ of this Board.

" 'As some doubts have arisen respecting the pro-
" 'priety of making these payments, and as the doubts
" 'apply equally to the payment of the pay-rolls of
" 'the Janitors of the Public Schools for the Boroughs
" 'of Manhattan and The Bronx and Brooklyn, for
" 'the month of May, 1901, I present some facts in

"regard to the previous method of payment of these janitors, and request that you will take the whole matter under consideration when replying to this communication.

"The janitors of the schools have been appointed by the Board of Education. Their salaries are not fixed by the Board when they are appointed. The salary which they receive is determined by the size of the building, etc., to which they are assigned. Prior to May 1, 1901, the janitors in Manhattan and The Bronx were paid one-thirteenth of their annual salary each month, except September, when they received two-thirteenths, provided the buildings were properly cleaned during the summer vacation. The janitors of the Borough of Brooklyn received one-twelfth of their annual salary each month. The janitors paid their helpers out of the amount they received, and the names of their helpers did not appear upon the pay-rolls.

"In order to prepare pay-rolls for janitor service in accordance with the directions of the Municipal Civil Service Commission, each janitor was required (by request of said Commission) to submit a statement showing the name of each assistant, the monthly compensation of each, the date of the employment of each by the janitor, and the nature of the work required of each. When these statements were sent in pay-rolls were made out, by direction of the Municipal Civil Service Commission, upon which appears the name of each janitor, together with the name of his assistants, with their titles (such as cleaner, etc.) and the monthly compensation of each as fixed by the janitor. The amount of the janitor's compensation is one-twelfth of his annual salary less the aggregate of the monthly pay of his assistants. These pay-rolls have been duly certified by the said Commission. Some of the objections which might be made to the payment of these pay-rolls are as follows:

"The assistants, whose names appear on these pay-rolls, were never appointed by this Board. Their compensation has not been fixed by this Board. The amount appearing in the Budget for 1901 is stated to be allowed for the payment of 'Salaries of Janitors in Public Schools.' There does not appear to be any provision in the section of the Charter relating to school administration, for the appointment of assistants to the janitors in the public schools, although there is special provision in Section 1075 of Chapter 18 for the appointment of janitors.

"In view of the importance of early payment of the amounts due the janitors, I beg to request that you will, at your earliest convenience, oblige me with an answer to the following questions:

"1. Did the assistants to the janitors, who were in the service of the janitors on May 1, 1901, become employees of this Board, *ipso facto*, by the act of registration and classification by the Municipal Civil Service Commission?

"2. Did their salaries as fixed by the janitors, become proper charges against the funds of this Board by this same act of the Municipal Civil Service Commission?

"3. If your answers to the preceding questions are in the negative, will a resolution of this Board, approving the action of the janitors in employing the assistants whose names appear on the pay-rolls, and in fixing their compensation as the same appears on the pay-rolls, make the same valid?

"4. If your answer to question 3 is in the affirmative, would the pay-rolls then be a proper charge against the appropriation for 'Salaries of Janitors in Public Schools'?"

The questions asked in your communication have been practically answered by the decision and opinion of Mr. Justice Gaynor of the Supreme Court in the application

of John Dowling of Public School No. 26, in the Borough of Brooklyn, for a peremptory writ of mandamus against the Secretary and Treasurer of the Board of Education of The City of New York, to require them to draw and sign a warrant to said Dowling for his pay of \$203.75 for May, 1901, as Janitor of said Public School.

The Justice holds that there is no authority for the requirement of the Municipal Civil Service Commission requiring the janitors to place the names of the persons he employs on the pay-roll.

He also holds that such helpers are not paid by the City, and that their names on the pay-roll are mere surplusage, as much so as would be the employees of any contractor with the City.

Said Justice uses the following language in his opinion:

"And he (the petitioner) and all the other janitors should now be paid without putting them to the trouble and expense of compelling new pay-rolls to be made out and to pass the various stages of routine. The pay-rolls can hereafter be made without containing such surplus matter, and the Secretary of the Civil Service Commission can be required by writ of mandamus to certify them if, indeed, such certification be necessary at all. People *ex rel.* vs. Knox, 45 App. Div., 537."

Dowling's application was made for the purpose of settling the questions at issue.

Under the decision and opinion of Mr. Justice Gaynor, the pay-rolls are a proper charge against the appropriation for "Salaries of Janitors in Public Schools," and the said salaries may safely be paid.

I send you herewith a copy of Mr. Justice Gaynor's opinion.

Yours respectfully,

JOHN WHALEN,

Corporation Counsel.

In the matter of the application of
John Dowling for a writ of mandamus directed to the School Board.

Gaynor, J.

This is an application for a peremptory writ of mandamus against the Secretary and Treasurer of the Board of Education of the City of New York to require them to draw and sign a warrant to the petitioner for his pay of \$203.75 for May, 1901, as Janitor of Public School No. 26 in the Borough of Brooklyn.

By Section 1075 of the city charter it is provided that janitors of the public school houses shall be appointed by the Borough School Boards. It is conceded that this petitioner is and has been for several years Janitor of Public School 26, in Brooklyn Borough, at a fixed compensation of \$2,445 a year, payable monthly. The pay-roll presented to the said Secretary shows that the petitioner is such janitor at the said yearly compensation, and in the appropriate column the sum of \$203.75 is set down as due to him for May, 1901. This suffices to require that he be paid.

The reason given for refusing to draw a warrant to the petitioner for the said sum due him is that on the pay-roll there appear in connection with his name the names of the persons he employs to help him sweep and scrub, and the amounts he pays them therefor. It appears that heretofore this information has never been on such pay-rolls, but that the Secretary of the Municipal Civil Service Commission required it should be put on this pay-roll for May and thereafter. There is no authority for this requirement. The School Board is required by law to appoint a janitor to care for and clean each school house. He necessarily has to employ more or less help, but that is a thing with which city officials have nothing to do. Such helpers are not paid by the city, and their names on the pay-roll are mere surplusage; as much so as would be the employees of any contractor with the city. The respondents are quite right in saying that such matter should not be on the

pay-roll, and in asking for a judicial decision thereon. At the same time, such surplusage on the pay-roll is not a reason for refusing the petitioner the writ he prays for.

This pay-roll is certified by the Assistant Secretary of the said Civil Service Commission to the effect that the persons named thereon are appointed or employed under the civil service law, which means from the civil service eligible lists. This cannot refer to the said helpers, for if it did it would be untrue. It refers only to the janitors, the said information as to helpers being useless surplusage. The pay-roll shows the necessary facts as to this petitioner, i. e., that he is the janitor, that his yearly pay is \$2,445, and that \$203.75 is due him for May; and he and all the other janitors should now be paid without putting them to the trouble and expense of compelling new pay-rolls to be made out, and to pass the various stages of routine. The pay-rolls can hereafter be made out without containing such surplus matter, and the Secretary of the Civil Service Commission can be required by writ of mandamus to certify them; if, indeed, such certification be necessary at all. (*People ex rel. v. Knox*, 45 App. Div., 537.)

No objection to this application as the proper remedy was taken by the learned counsel for the city, but on the contrary, with commendable fairness he united in requesting that the court decide the dispute involved for future guidance and in order to save these janitors further trouble and expense.

Let the writ issue.

Mr. FAGAN, J. J. P.,	Mr. TOTTEN,
Mr. HURLEY,	Mr. YOUNG—27.

The President announced the death of Superintendent Edward G. Ward and stated the object of the meeting to be the taking of suitable action in relation thereto.

By Mr. BENDERNAGEL:

Resolved—That by this Minute the Brooklyn School Board expresses its profound regret at the loss that our school system has sustained in the death of Superintendent Edward G. Ward.

He was a man of absolute and unquestioned integrity. In judgment he was just; in motive, above reproach. Impelled by a conscientious and unlimited devotion to duty, he literally gave himself to his work. Even when the severe exactions of his office began to undermine his naturally strong constitution, he labored on with customary cheerfulness and unremitting effort. In order that the interests intrusted to his care might prosper, he sacrificed himself.

He had a deep and sympathetic regard for the feelings of others. His attitude toward his subordinates was uniformly considerate and genial. To those whose station was humble or whose lot was hard, he showed a kindness far surpassing the claims of conventional courtesy.

By the candor and fairness of his mind, he won the trust and confidence of all who dealt with him; by the purity and gentleness of his heart, he held the esteem and affection of all who truly knew him.

Mr. Ward's death is not merely an official loss, but a personal bereavement to every member of this body and to our entire teaching and supervising force. By all connected with the cause of Brooklyn public education, his memory will be cherished long and tenderly.

Remarks eulogistic of the character of the deceased were made by Messrs. Somers, Young, Bassett, Sullivan and Scottron, and by Mr. Charles N. Chadwick, a former member of the School Board.

The following extracts from a letter from Superintendent Ward were read by direction of the President:

489 NORWOOD AVENUE,
BUFFALO, N. Y., August 23, 1901.

Honorable CHARLES E. ROBERTSON,
President, School Board,
181 Livingston Street, Brooklyn, N. Y.

DEAR FRIEND ROBERTSON:

I have been going to write to you of my condition for some time, but have delayed, hoping to be able to send better news. My case, however, is now such that I see no reason for waiting longer.

I have been ill all summer. My trouble seems to be * * * * due no doubt, to the sedentary habits of the last few years. * * * * My doctor is confident of pulling me through, and says * * * * I will be in every way stronger and more vigorous than I have been for years. * * * * I have eaten next to nothing for two months, and am now living on a little malted milk. I succeeded in keeping about until last Saturday, when I became so debilitated that I had to take to my bed.

It is of course quite out of the question that I should be at my post at the time of the opening of the schools, and I may not get back for a considerable time thereafter. I hope though to be with you some time during the Fall revigorated, as my doctor encourages me to believe I shall be, to do my full share in whatever fight the citizens of Brooklyn may at that time be making for autonomy in matters educational.

I want to thank you now for all the kindness I have experienced at your hands and for the perfect support you have always given me.

Yours most sincerely,

E. G. WARD.

Mr. Bamberger moved that the extracts just read be printed in the minutes.

The motion was agreed to.

The resolution, as submitted by Mr. Bendernagel, was then unanimously adopted.

By Mr. Bendernagel :

Resolved—That on Monday, the 16th instant, the day of the funeral of our late Superintendent, Edward G. Ward, the public schools be closed at 12.30 o'clock P. M.

The resolution was unanimously adopted.

Mr. Sullivan moved that it be the sense of this meeting that the members of the School Board attend the funeral of Edward G. Ward in a body.

The motion was unanimously agreed to.

The President called a special meeting of the Board to be held immediately after adjournment of this meeting to take action on the death of President McKinley.

The Committee appointed to prepare resolutions in memory of our late associate, James Wright, beg leave to submit the following as a minute to be incorporated in the records of this Board :

James Wright was appointed a member of the Board of Education of the City of Brooklyn on June 26, 1897, and when suddenly removed by death had not quite completed four years of service in the Brooklyn Board of Education and its successor, the School Board of the Borough of Brooklyn. His was not, therefore, an extended term of service. For

those with whom he was most closely associated in the work of the Board, it was, indeed, all too brief, but his careful and assiduous discharge of every duty, his judicious and temperate counsels and his steady devotion to the best interests of the public school system left an impress upon the proceedings of the Board during the years he was connected with it, which cannot be measured by the mere duration of his service. Of gentle temper and marked kindness of spirit, he did not court the turmoil of controversy, but his quiet dignity of manner was not inconsistent with a strict and tenacious adherence to what commended itself to him as the proper line of policy in school administration.

His service on committees was patient and unremitting, and his experience and his practical sagacity made him always a helpful and valued adviser. His sense of the dignity and importance of the trust he was called upon to discharge was keen and high, and he was ever solicitously regardful of the amenities of his position. It may be said of him with entire justice that he was true to the best traditions of his office; that he regarded opportunity as a challenge to duty, and that he recognized no higher call to the exercise of the best activities of the citizen than that inspired by the cause of public education. Endowed with characteristics which gained for him the confidence and esteem of his colleagues, and furnishing an uplifting example to the young, James Wright has left behind him a memory which is a treasured possession to those who had the privilege of being associated with him, whether in public or in private relations.

COMMUNICATIONS.

From the Board of Education :

BOARD OF EDUCATION,

NEW YORK, October 24, 1901.

GEORGE G. BROWN, Esq.,

Secretary, School Board,

for the Borough of Brooklyn.

DEAR SIR:

Enclosed please find certified copy of preamble and resolutions adopted by the Board of Education at the meeting held on October 23, 1901, relative to the payrolls of teachers in the Borough of Brooklyn, and the adjustment of teachers' accounts since May 3, 1900.

Respectfully,

A. E. PALMER,

Secretary, Board of Education.

WHEREAS, On June 26, 1901 (Journal, pages 694-5), the Board of Education amended paragraph 3 of Section 74 of the By-Laws, in order to render operative the plain intent of Chapter 751 of the laws of 1900, viz., that all teachers of corresponding rank and years of experience in all Boroughs should be paid after May 3, 1900, on precisely the same basis; and

WHEREAS, The method of calculation in the Borough of Brooklyn has rendered it imperatively necessary that the teachers' accounts since May 3, 1900, should be completely revised, in order that a uniform system should prevail, and the Board of Education also adopted a resolution in connection with the amendment to the By-Laws, providing for an adjustment of account to be made upon the September, 1901, payroll; and

WHEREAS, The school authorities in Brooklyn have intimated that the volume of work incidental to the before-mentioned adjustment has been too great to perform within the time specified, and have requested that

the proposed settlement with the teachers be deferred; therefore, in order to meet the wishes of the school authorities in the Borough of Brooklyn, and to preclude any temporary inconvenience which might arise from the adjustment being made as originally contemplated; be it

Resolved, That the time for adjustment with the teachers of such amounts as may be found to be due under the uniform system be extended to cover the months of October and November, it being expressly understood that no further extension of time beyond the period mentioned will be asked.

Resolved, That, pending the final adjustment as provided in the next preceding resolution, the school authorities in Brooklyn be authorized to file monthly payrolls applicable to schools in which salaries of teachers may remain unadjusted at the time when said monthly payrolls become due; said monthly payrolls to be calculated on "*twelfths*" as provided in the amended by-law, and, further, that the payrolls containing adjustments be forwarded for audit as and when completed during the extended period.

A true copy of preamble and resolutions adopted by the Board of Education on Oct. 23, 1901.

The Committee on Finance respectfully reports that at a meeting of the School Board held on September 3, 1901, this Committee was requested to report whether the Board has financial ability to carry into effect the proposed amendment to the By-Laws providing for additional teachers to be assigned to clerical work.

Complying with the request, your Committee reports that, for the remainder of the year 1901, the sum of five thousand dollars would be required to pay the salaries of the additional teachers for which provision is made in the proposed amendment. This estimate is based upon the supposition that the teachers to be appointed will receive the minimum salary, viz., six hundred dollars per annum.

Your Committee respectfully reports that funds are available to pay the salaries, for the balance of the fiscal year, of the additional teachers provided for in the proposed amendment referred to in the resolution of the Board.

REPORT OF THE LAW COMMITTEE IN RESPECT OF
THE PROTECTION OF TEACHERS IN THE
RETIREMENT FUND.

NEW YORK CITY, BROOKLYN BOROUGH,

November 6, 1901.

On October 1st, 1901, the following resolution was passed by the School Board of the Borough of Brooklyn:

"Resolved, That the Committee on Law be requested to consider and report to this Board what steps should be taken to protect the interest of our teachers in the Retirement Fund, under the provisions of the revised Charter."

The Chairman of the Law Committee assigned the subject under consideration to George Freifeld, Esq., for his opinion.

The following is the report of Mr. Freifeld:

"It appears that the revised Charter, to take effect next year, changes the law regarding the retirement of teachers in Brooklyn passed in 1895 in several respects. It increases the age limit from 55 years to 65 years; it gives an additional number of persons the right to be retired; it makes necessary the recommendation of the City Superintendent for retirement of persons subject to physical or mental disability, and it alters the annuity to be paid by increasing the amount thereof in the cases of principals and supervising officials and reducing it to the maximum of \$1,000.00 in the case of teachers.

"The new law appears to abolish, although not expressly, the deduction of 1 per cent. from the salary of teachers in Brooklyn and vests in the Board of Education of the City of New York the right to retire a teacher who comes within the conditions laid down in the law. The retirement fund is given into the custody of the Comptroller of the City of New York to hold and

invest all money belonging to the fund and by the direction of the Board of Education to pay out the same.

"The Board of Education has the power to 'establish such rules and regulations for the administration of such fund as it may deem best; which rules and regulations shall preserve all rights inhering in the teachers of the City of New York and the City of Brooklyn as constituted prior to the passage of this act.'—Section 1092 of the Charter.

"Under the latter provision your Committee is of the opinion that the delegates from this School Board and the representatives of Brooklyn in the Board of Education to be formed on February 1, 1902, shall immediately apply to the corporation counsel for his opinion, (1) as to whether or not the power thus given is sufficient to enable the Board of Education to adopt rules and regulations which shall preserve and perpetuate the right of Brooklyn teachers to the exclusive benefit of all moneys, and the interest thereon, contributed by them since 1895 to and remaining in the retirement fund from their salaries under the law as it has existed since that year. Otherwise, in the event of the depletion from any cause of the funds for the retirement of teachers in the City of New York, the retired teachers of Brooklyn would not retain the exclusive benefit of such moneys levied upon themselves voluntarily, but the same would be distributed over all the other boroughs where no teachers have in the same manner contributed to the fund. And (2) whether or not Brooklyn teachers now in the service have a vested right to hereafter receive, upon being retired, annuities similar in amount to those now payable to applicants for retirement.

"In the event that the opinion of the corporation counsel should be to the effect that the law above quoted does not empower the Board of Education to establish such rules, it may then be necessary and proper either to appeal to the Legislature for relief, or, upon proper issues being framed, to submit the matter to adjudication by the courts.

"In connection with the foregoing we submit the following resolution:

"Resolved, That the delegates of this School Board to the Board of Education are hereby instructed to apply to the corporation counsel or procure the said Board of Education to request an opinion as to whether or not, (1) Section 1092 of the revised Charter empowers the Board of Education to establish rules and regulations which shall preserve the right of Brooklyn teachers to the exclusive benefit of moneys contributed from their salaries under the present law for the retirement of teachers. (2) Whether Brooklyn teachers now in the service shall hereafter receive annuities similar in amount to those now payable to applicants for retirement."

All of which is respectfully submitted.

REPORT OF THE LAW COMMITTEE IN RESPECT OF
THE REFUND OF MONEYS PAID BY CERTAIN
TEACHERS TO SUBSTITUTES, ETC.

NEW YORK CITY, MANHATTAN BOROUGH,

November 6, 1901.

To the School Board of the Borough of Brooklyn:

The Law Committee begs to report its opinion in respect of the following resolution adopted October 1, 1901:

"WHEREAS, The money paid in good faith by many teachers in this Borough to substitutes, for services actually rendered, has not been refunded to said teachers in accordance with our By-Laws, and

"WHEREAS, Many teachers are receiving salaries lower than those granted them by law; therefore be it

"Resolved, That the Committee on Law of this Board be requested to investigate these matters and to report at the next regular meeting what steps should be taken by the School Board to secure for Brooklyn teachers the rights and privileges to which they are entitled."

At a meeting of the Law Committee the subject matter embodied in the first preamble was referred to the Chairman, who was appointed a committee of one to confer with the City Superintendent of Schools, for the purpose of devising the most expedient means of procuring the speedy payment of the moneys withheld from the teachers.

On November 1, 1901, the Chairman of the Law Committee forwarded the following communication to Mr. Maxwell:

"November 1, 1901.

"HON. WILLIAM H. MAXWELL,

"My Dear Sir:

"At a meeting held last evening in respect of a resolution adopted October 1, 1901, 'relative to the refund of money paid by certain teachers to substi-

'tutes,' referred to the Law Committee, I was appointed a committee of one to request you to issue licenses to said substitutes, under and in accordance with the authority vested in you by the State Superintendent of Public Instruction.

"In the opinion of the Law Committee of the Brooklyn Borough School Board, the considerations are many and weighty why such licenses should be issued, and I am quite willing, personally, to lay them before you, if such be your pleasure, at such time and place as you may indicate, at least two days prior to the next meeting of the Board.

"The Law Committee will be greatly pleased to receive your views as to the character of the resolution to be presented to the Borough School Board at its next meeting, to the end that the moneys paid in good faith by the teachers for substitute service may be refunded to them.

"Awaiting your reply at early convenience, I am

"Yours very respectfully,

"IRA LEO BAMBERGER,

"Chairman of the Law Committee of the

"Brooklyn Borough School Board."

On the same day the City Superintendent replied as follows to Mr. Bamberger:

"November one,

"Nineteen hundred and one.

"DEAR SIR:

"I have your letter of November one, relative to the refund of money paid by certain teachers to substitutes. No application has been made for the issue of substitute licenses to the persons you indicate. I should be glad to confer with you on the matter, and I shall meet you at any time and place you may indicate, except Monday afternoon or evening, or Tuesday or Wednesday evening.

"Respectfully yours,

"WILLIAM H. MAXWELL,

"City Superintendent."

On November 4, 1901, at a conference between the City Superintendent and the Chairman of the Law Committee, it was suggested that this Board refer the matter to the Committee on Laws and Legislation of the Central Board, to the end that the latter might take the necessary steps to procure the repayment of the moneys to the teachers.

Accordingly, the Law Committee deems it wise that the following resolution be adopted:

"Resolved, That the matter of the claims of the teachers in the public schools of the Borough of Brooklyn for repayment of the sums advanced by them to substitutes during the period commencing September, 1899, and ending July, 1900, be, and the same hereby is, referred to the Board of Education of the City of New York, with the request for a reference by it to its Committee on Law and Legislation, for the purpose of devising ways and means for the immediate payment of the said claims; and that the said Board of Education be, and it hereby is, respectfully requested to certify to this Board at its next regular meeting in December, 1901, such action as the said Law Committee and Board of Education have taken in respect of this resolution."

As to the second branch of the resolution, the Law Committee has received the valuable aid of the Borough Superintendent, John H. Walsh, and has practically adopted the able argument presented by him at the meeting.

The Committee finds that many teachers have not been paid the salaries granted them by law.

1. The By-Laws and schedules of the Board of Education provide for the payment of salaries under the Davis Law from May 3, 1900. However, in the matter of the increased salary due to teachers of boys' and of mixed classes, the operation of the law has been postponed until September 10, 1900.

These By-Laws limit the number of teachers of mixed classes to be paid this increased salary, by requiring that the attendance of boys in these classes should be, for the first five months of the school year beginning September 10, 1900, fifty per cent. of the total attendance and forty per cent. thereafter.

Your Committee is of the opinion that these restrictions are illegal. It claims that teachers of boys' and of mixed classes should receive the legal rate, at least from May 3, 1900, and that all teachers of classes composed partly of boys and partly of girls should receive the increased pay granted them by law.

Your Committee thinks that the method of payment should be changed to comply with Chapter 335, Laws of 1887, which provides that "the pay of any teacher employed in the public schools of this State shall be due and payable at least as often as at the end of each calendar month * * *."

Your Committee feels that a teacher of a class of boys or of a mixed class retired upon a pension after thirty years of service is entitled to the benefit of the increased salary payable to the teacher of such a class, especially as she is compelled to contribute to the pension fund one per cent. of this increase.

Your Committee recommends that the Board of Education be requested to correct its By-Laws by the omission of the definition of a "mixed class" in Section 74, Subdivision 1, and by such a modification of Subdivision 12 of the same section, as will provide for the monthly payment of the increased salary due teachers of boys and of mixed classes.

2. Your Committee is of the opinion that the definition of the term "regular teacher" should be stricken from the By-Laws, Section 74, Subdivision 1. The Davis Law, Chapter 751, Laws of 1900, does not use this term in the portion of the law devoted to elementary schools; it speaks only of "male teachers" and of "female teachers."

The omission of the foregoing definition and the omission of the provision in Subdivision 14 that kindergarten helpers shall receive only \$2.50 per day, will enable us to pay these teachers the \$600 per annum granted all female teachers by the Davis Law and the Ahearn Law, and to grant them the credit for service to which they are entitled.

3. The special teachers in elementary schools are placed at some disadvantage by the implication in the By-Laws that they are not covered by Chapter 751, Laws of 1900. This law provides that male and female teachers in elementary schools shall receive annual increases up to and including that provided for the seventh year, without requiring formal approval

of their service by a majority of the Borough Board of Superintendents. Some teachers of music are paid salaries lower than those to which they are entitled because the Board of Superintendents has omitted to make an unnecessary approval.

4. Schedule II, for heads of departments and principals of small schools, is misleading. It reads as follows:

<i>Years.</i>	<i>Women.</i>	<i>Men.</i>
1.	\$1,400	\$2,100
2.	1,500	2,250
3.	1,600	2,400

The Davis Law provides that a female head of department shall be paid \$1,600 after ten years of service, and a male head of department \$2,400. The law is obeyed by reporting a head of department during her ninth year of teaching service as entitled to first year rate of Schedule II; during her tenth year, as entitled to the second year rate of the Schedule; and during her eleventh and succeeding years, as entitled to the third year rate. It might be better to have the years 1—2—3 in the schedule replaced by 9—10—11. This would enable us to give the principal of a small school who has taught twenty-odd years in Brooklyn the rate given a person in a lower position after ten years of service. As the schedule is now interpreted, it means 9—10—11 for one set of people and 1—2—3 for another, which is a source of some dissatisfaction.

5. The Davis Law provides that no teacher in the elementary schools shall receive a salary greater than that fixed for the seventh year of service unless and until the service of such teacher shall have been approved after inspection and investigation as fit and meritorious by a majority of the Borough Board of Superintendents. It is held by the authorities in Manhattan that while this provision is to be strictly construed in the case of local teachers, it does not apply at all to teachers from outside who have been allowed seven years by the Board of Examiners. The certificate of the latter is declared by the By-Laws to make the Davis Law provisions null and void. A Brooklyn teacher returning in September after twelve years of experience may receive only the seventh year rate for the first twelve months, no matter how excel

lent; while one from abroad with a seven years' allowance by the Board of Examiners, is paid the eighth year rate from the start, and is increased annually for four years more, no matter how unsuccessful, provided only that she retains her position.

The Committee recommends that the By-Laws should be amended in this respect, as in all others, to conform with the express provisions of the law.

6. The Committee is of the opinion that no special schedules are necessary for truant schools. A truant school is an elementary school, and a teacher in such a school should receive at least as much pay as is given to a person doing easier work. The salary of the principal of such a school should be at least as great as that of the principal of an elementary school of the same number of classes.

7. The provision in the Davis Law, that no teacher in a high or a training school should be paid less than he or she would be entitled to in an elementary school is not carried into effect by provisions in the By-Laws. The latter should be changed to conform with the law.

Respectfully submitted,

IRA LEO BAMBERGER,
Chairman of Law Committee.

ADOLPH KIENDL,
E. M. BASSETT,

FROM THE COMMITTEE ON EVENING SCHOOLS.

Pursuant to Article VI, Section 170, of the By-Laws of the School Board the Committee on Evening Schools respectfully submits for approval the following amended regulations for the management of the evening schools:

REGULATIONS FOR THE MANAGEMENT OF THE EVENING SCHOOLS.

Adopted by the Committee on Evening Schools, October 29, 1901.

PART I.

SECTION 1. The Committee on Evening Schools shall designate in each school year the date on which the evening schools shall open and the number of evenings they shall continue.

The holidays shall be the same as for day schools, but the winter vacation shall be fixed each year by the Committee on Evening Schools.

The time devoted to the preliminary registration shall be the two school weeks immediately preceding the opening. The hours of registration shall be from 7 to 9.30 P. M.

The principal and not more than one person for every hundred pupils in average attendance during the previous term shall act as registers.

All such registers except one shall be members of the regular teaching staff of the school. The other register shall act as assistant to the principal during the first week of the session. The salary of the register shall be three dollars a night.

No person shall be appointed to assist in registration who does not hold a teacher's license for the grade of school in which he is to be employed.

SECTION 2. The Committee on Evening Schools shall on or before the fifteenth of March appoint principals and teachers to fill the vacancies that may have occurred in the regular corps.

No additions shall be made to the permanent corps of teachers, unless the attendance of the school prior to the winter vacation of the preceding term shall have amounted to an average of twenty-five (25) to a class, in which case one teacher shall be appointed for every twenty-five pupils above the said minimum average.

In case the average attendance prior to the winter vacation of the preceding term shall have fallen below twenty to a class, the regular corps shall be reduced until there shall be one teacher for every twenty of the said average attendance.

Adult classes and classes to teach foreigners the English language shall not, however, be counted in reckoning the average attendance of the several evening schools, but shall be treated as distinct departments of which the average shall be taken separately. In case such average attendance prior to the winter vacation of the preceding term shall have fallen below twelve to a class, the number of teachers shall be reduced until there shall be one teacher for every twelve of said average attendance.

No addition shall be made to the teachers of the adult classes and classes to teach foreigners the English language unless the attendance of such classes, prior to the winter vacation of the preceding term, shall have amounted to an average of fifteen (15) to a class, in which case one teacher shall be appointed for every fifteen pupils above the said minimum average.

SECTION 3. The Committee on Evening Schools shall have power in their discretion to maintain such evening high schools as they deem advisable. Said high schools shall be subject to such rules and regulations as the Committee on Evening Schools shall adopt.

SECTION 4. When an evening school contains more than seven and less than fifteen classes and occupies two or more floors, it shall be entitled to a head of department, who shall teach a class. But where there are fifteen or more classes in a school, a head of department may be appointed who need not teach a class, but who shall perform such duties as the principal of the school shall direct.

SECTION 5. No person shall be appointed a principal, a head of department or a teacher in any evening school who does not hold a certificate for the grade of work required, granted or approved by the City Superintendent of Schools, except that all certificates granted prior to February 1, 1898, shall have the full value preserved to them by Chapter 644 of the Laws of 1899.

No person shall be appointed to teach English to foreigners or any other special branch in any evening school, who does not hold the special certificate prescribed for teachers of said branch, or a teacher's certificate granted prior to February 1, 1898.

In schools of fewer than six classes, the principal shall teach a class.

SECTION 6. Teachers in evening schools shall hold their positions from term to term until removed by the Committee on Evening Schools, subject to the power of said Committee to abolish unnecessary positions by the consolidation of classes.

All appointments shall be made subject to the approval of the Committee on Teachers and the School Board.

PART II.

1. Instruction shall begin at 7.15 in all female departments and at 7.30 in all male departments, and shall continue until 9.15 in the former and until 9.30 in the latter.

2. The doors shall be opened a quarter of an hour before the commencement of school exercises, at which time the teachers shall be present to maintain order and make all necessary preparations for the work of the evening.

3. No person shall be admitted to an evening school unless his age or occupation is such as to prevent him from attending a day school.

4. All registrations of persons less than eighteen years of age shall be made by parents or guardians, except in cases wherein the applicants have neither, and then a voucher or other satisfactory proof of character and intention to attend the evening school during the term shall be required.

5. The principal shall carefully grade the pupils according to attainments, in all classes, in both the male and female departments.

6. Every accepted applicant shall receive a card of admission. Each principal shall keep a record of the name, age, residence, occupation and employer of every pupil.

7. All registrations during the first week of the session shall be done by the principal and his assistant.

8. At the close of the second week of the term, each principal shall report the following particulars concerning his school, to the Superintendent of Schools:

First—Number and character of classes in which English is taught to foreigners.

Second—Number and character of adult English classes.

Third—Number of classes, if any, of each sex in each grade, prescribed by the course of study.

Fourth—Description of the grading in each class that contains pupils of more than one grade.

9. Every evening school shall be examined at least once during the term by the Superintendent or Associate Superintendents.

Resolved—That the Committee on Music be and hereby is authorized to appoint, subject to the provisions of the By-Laws, two additional music teachers for full time each, said appointment to take effect November 7, 1901.

The resolution was adopted.

By Mr. Freifeld:

The Committee on Music respectfully submit the accompanying report of the Director of Music as their annual report for the year 1900:

In connection with the statement of the Director of Music as to the attempt at renewal of licenses which have been declared permanent by the Supreme Court, the Committee would direct attention to the action recorded in the Minutes of this Board for the current year, pp. 488-491, and 525-527, and to the fact that the City Superintendent is pursuing the same line of procedure as at the date of the report of the Director of Music, a demand having recently been made upon the Borough Superintendent for information preparatory to a renewal of or a refusal to renew the license of Mr. Paul Martin, Jr.—a music teacher whose first year of service expired October first last—although Mr. Martin has not applied for such renewal, his license being a permanent one.

DEPARTMENT OF EDUCATION,
SCHOOL BOARD,

BROOKLYN, NEW YORK, April 30, 1901.

To the Committee on Music.

GENTLEMEN:

In view of the recent legislation, which, regardless of the various conditions of different localities, prescribes for all a leveling machine, and which, if allowed to become effective, will demolish the structure which it has taken such arduous labor to rear, and will place the musical instruction of the children of our schools largely in the care and custody of persons other than qualified teachers of music, causing the Music Department of the Brooklyn schools to revert to the condition of a quarter of a century or more ago, and robbing it of the distinction of first place which has been its proud position of recent years, I feel it but just to the system, in reporting to you for the past year, to call attention to some of the features that have contributed to its uniqueness and success.

Brooklyn was the first city in the country to hold examinations for the granting of certificates or licenses to teach to applicants for music teachers' positions, and the plan was in operation for sixteen years prior to the merging of Brooklyn into Greater New York, with the result of securing a corps of music teachers representing the best obtainable as to intelligent and thorough musicianship. During these years there appeared for examination one hundred and eighty applicants, to whom were granted licenses, and to five music teachers who were in the employ of the Board of Education previous to the institution of the custom, licenses were also issued, after inspection of their work, by order of the Committee on Music. In gauging the musical ability of the applicants, the examinations were divided into three parts—the first written, consisting of questions and exercises in the theory of music, and the second and third of tests—not less than four—in singing at sight and in facility in piano accompaniment. In order to secure the certificate, applicants had to attain to at least eighty per cent. in each of the three requirements.

Unlike the teachers in many places, our music teachers *teach*—they do not merely supervise and criticize. Much harm is done throughout the country to the cause of music, and particularly school music, by the influence of various publishers who claim that by particular methods or systems, class teachers can do the music work. This is pernicious; few of the regular teachers have the necessary music gift, and no matter how much instruction may be given them, they will never be able, unaided, to teach *music* properly. They may succeed in imparting a knowledge of what may be termed the arithmetic of the art, but *music* never has been and never will be successfully taught except by the trained musician. Those who claim to the contrary belong to one of three classes—those who are ignorant of the subject, those who have a smattering knowledge of it, or those who are interested in the promulgation of “systems” for the turning out of “music teachers.”

It has for some time been the custom of our music teachers to meet with the Director of Music at least once a month, for purposes of conference, discussion and instruction. They in turn habitually confer with and instruct the class teachers in their respective schools from week to week, not merely in the course of the music lesson to the class, but at recesses and after school hours, and the Director of Music has for many years kept two days in each week open, from four o'clock in the afternoon until ten at night, for the visits of such music teachers or class teachers, principals or heads of departments, as may desire conference or advice. Scarcely one of those days has gone by without at least six and sometimes as many as twenty such visits.

Suggestions have been made that the class teachers be called together after school hours, for conference and instruction, but I have strenuously objected to any such plan, and have persistently refrained from instituting it. In my judgment, the class teachers have already enough to do after school, and my experience has demonstrated that the close personal relation above outlined is far more effective than could possibly be any general and enforced meetings.

It has also been suggested that music be "counted" as are the other studies—considered in estimating as to the pupil's fitness for promotion. This I consider would be neither just nor practicable. With the unequal distribution of the music sense, it would be manifestly unfair to judge all by the same standard, for what would be very fine work for one pupil might be very poor work for another more gifted, and the class teacher, with the multitudinous other subjects to compass, and without the essential musical experience, could hardly be expected to properly adjust the balance. The music teacher of the school would be the only one who could possibly do this, but with the limited time at disposal for the subject, it can be readily seen that in so far as the lower schools are concerned, the idea is an impracticable one. In the high schools, however, conditions are different. There the work is largely theoretical, and the ordinary intelligence which solves mathematical and other problems of study can be made to accomplish the music work. I think that in all the high schools the rule which obtains at the Manual Training High School should prevail—the semi-annual examinations in music which I hold there count for or against the pupil's promotion.

While on the subject of high school music, I desire to put emphasis on my already expressed opinion, that there should be no distinction between high and elementary school work so far as the classification of teachers is concerned. All of our teachers obtained their licenses as teachers of music through passing examinations similar in character and of as nearly as possible the same degree of difficulty; hence as to theoretical qualifications they stand equal. As to professional ability, there is just as much required in the lower grade work as there is in the high school; in fact, primary and grammar grade work need more especially gifted teachers than does a great part of that of the high school, for the technical work of the high school, being largely mathematical, might be accomplished without the teacher possessing the God-given music sense; but in the lower grades, the elementary schools, where sight-reading is

taught where the work of the cultivation and preservation of purity of tone predominates, and where the intelligent appreciation and rendition of musical compositions is dwelt upon, the teacher-musician—the musician of high and broad culture—is a necessity. There should be no difference made as to class. Our teachers in the high schools do better work for being also teachers in the elementary schools. Our course of study in music is continuous and progressive, from the lowest primary grade to the end of the Teachers' Training School course, and a teacher who works continuously and continually through the entire course knows best what to expect at any particular point of its development, and in the high school work what will be the especial points of weakness or of strength and just where to put stress in the final teaching. The work in the Training School for Teachers includes a résumé of the work of the entire previous course, with instruction in the art of teaching—of supplementing the work of the music teacher. The policy of having any part of the music system in the public schools separate and distinct is incomprehensible. The unwisdom of such a policy must be apparent.

Perhaps it is well in this connection to recapitulate the main points of the law suit which several of our music teachers assigned to high school work were compelled, at the beginning of the fall term, to bring in order to obtain their salaries. As you will remember, the names of these teachers—Messrs. O'Donnell, Göste, Campbell, Yerbury and Davidson—on the music teachers' payrolls, which were duly approved and forwarded to Manhattan by the proper officers of the School Board, were canceled, the reason assigned being "no license." To obtain their salaries and at the same time a judicial opinion as to their licenses, which had been granted prior to January 31, 1898, by authority of the Board of Education of the City of Brooklyn, these teachers brought suit in the Supreme Court, and, after weary months of waiting in patience and with great fortitude and loyalty, for which all credit is due them, a decision

was rendered in their favor and in favor of all holders of music teachers' licenses granted under the Board of Education of the City of Brooklyn. The main points covered by the decision were the legality, the scope and the permanence of the licenses in question. The legality was sustained, the scope was declared to be just as comprehensive as before consolidation, assuring the eligibility of the licensees to assignment to high as well as to elementary schools, and the permanence was decided to be just as secure as under the old city—the licenses being irrevocable except for cause, and then revocable only by the State Superintendent of Public Instruction. With all this, your Committee is familiar, but I deem it but right to here make this brief statement of the case so that the points adjudicated upon by the Supreme Court of the State may be clearly brought to mind.

I quote a letter from Mr. Edward M. Shepard, of Counsel, summarizing the decision:

"PARSONS, SHEPARD & OGDEN,

"TRINITY BUILDING,

"No. 111 Broadway,

"New York, 2d March, 1901.

"ALBERT S. CASWELL, Esq.,

"181 Montague Street,

"Brooklyn, N. Y.

"DEAR SIR:

"The decision of Judge Maddox upon the O'Donnell application determines all of the questions involved completely in favor of your contentions. Mr. Maxwell and the Corporation Counsel insisted that the Board of Education of the former City of Brooklyn had itself no power to grant licenses or to authorize any one else to grant licenses. This contention is overruled. Your authority as Director of Music was, of course, originally derived from the Board of Education of the former City of Brooklyn; and that authority is sustained by the decision. To be more specific I point out that the decision of the court sustains our contentions as follows:

"1. That the certificates issued by yourself as Director of Music—all such having been issued prior to 1st of February, 1898—are valid.

"2. That the holder of such certificate is duly licensed to teach music in any of the public schools of Brooklyn, whether elementary, high or training schools.

"3. That such licenses remain in force until revoked for cause by the State Superintendent of Instruction.

"Those who were your licensees at the time of the consolidation of Brooklyn into the Greater New York are held to be as completely protected as are any other licensees by the provisions of the McCarren Act.

"Very truly yours,

"(Sgd)

EDWARD M. SHEPARD."

Prior to the incidents which compelled the proceedings above outlined, the salaries of nine of your teachers had been withheld for several months on the ground that their names did not appear on any eligible list. Their names, with those of all your licensees who were not in the employ of the Board on January 31, 1898, had been registered in the office of the Borough Superintendent of Schools, and appeared, and still appear, in the records of that office as the names of holders of permanent licenses to teach music in the public schools of Brooklyn. In July, 1898, as will be seen by reference to the "Letter Book" of the Borough Superintendent, this list was sent to the Central Office, Manhattan. Why the names were not forthwith placed upon the proper eligible list, as required by the Charter, has never been explained. Certainly the omission has been the cause of great hardship to the fourteen music teachers (half of the entire staff) whose salaries were at various times withheld. The facts having been made known to the Corporation Counsel, that official wrote an opinion which is spread upon the Minutes of the School Board, 1900, pp. 295-300. That opinion upheld the contention of your Committee, and the teachers received their wages, but without interest. It was supposed that the question of the status of music teachers licensed prior to consolidation by au-

thority of the Board of Education of the City of Brooklyn was settled, but such was not the fact. Reference to a report to be found on pp. 463, 464, of the School Board Minutes for 1900, giving a partial eligible list of music teachers, will show that the word "elementary" has been interpolated, and it is also now claimed that the licenses referred to are but temporary licenses, despite the records of the Borough Superintendent's office, and the decision of the Supreme Court. Notwithstanding the fact that Mr. Justice Maddox in rendering his decision held that the licenses "must * * * be recognized * * * as in full force," demands have been made since the date of that decision, for information on which to base a *renewal* of the licenses of those of our music teachers, Messrs. Downs, Downey, Joannes, Morris and O'Brien, and Misses Mullin, Mulligan and Piretti, whose first or second year of service expired during this term. In addition to this the pay for all substitute work done since the first of January last by one of our regularly licensed substitutes, Mr. Joseph L. Fish, has been withheld, on the ground that his name is not on the eligible list, although it was among those furnished the Manhattan office from the Borough Superintendent's office in July, 1898, and again in June, 1900.

On the unsettling, deleterious effect of such trifling with official records and decisions, and of such unwarranted interference with the rights of teachers, I need not descant, but I cannot let this occasion pass without paying tribute to the steadfast loyalty of the staff of music teachers to your Committee and the Director of Music, and their perfect trust, under the most trying conditions, in your wisdom and judgment. In passing, let me remark that in the present apportionment of salaries, which is not, in all particulars, in accordance with the schedule adopted by the Board of Education, an unjust, and, as I am advised, illegal discrimination is made, for which a remedy should be promptly applied.

In considering the annoyances which threatened to discredit us by impeding our work during the last half of the year, I had almost overlooked the mention of the

glorious ending to the first half—the performance of our children in connection with the National Sengerfest at the 13th Regiment Armory on the third of July. On that occasion was heard a chorus of nearly five thousand pupils, representative of all our schools. Their singing was magnificent, for which too much credit cannot be given the corps of music teachers, for while the particular work of preparation was done in the six weeks immediately preceding the event, it was the splendid general work of the music teachers, reinforced by the work of the class teachers, heads of departments and principals, from week to week all through the school course, that made possible the grandeur of the achievement. From all sides and from professional and non-professional sources, came glowing and eloquent praise for the beauty and artistic finish of the work, mingled with high commendation for the system which could produce such results. It was a performance to be proud of, and one likely to be never forgotten by either auditors or contributors, and it amply repaid the great outlay of time and energy necessary to its perfection, given unreservedly and ungrudgingly by all concerned.

While the successful outcome of such an event must be to the music staff a source of deep gratification and of strong impetus toward further effort, and while the impression made upon the minds of the children participating cannot fail to have its influence on the music of the schools, there is another far-reaching purpose served by such a performance: The people from other cities and other States who heard our children sing have carried away with them the remembrance of that singing, and, wherever their homes may be, the cause of public school music has been advanced by added friends and advocates.

Semi-annual examinations have been held in the various schools, and certificates have been awarded to graduates from the high schools, as usual.

The time allotted for your specialists in music during the year 1900 amounted to 23,256 hours. Of these 23,256 hours, 410—one and three-fourths per cent.—were

lost on account of illness or for other reasons stated in the monthly certificates of attendance, and this loss of time was excused by your committee. All other absences were provided for by the employment of duly certified substitutes, who served during 255 1-3 hours, and were paid by the teachers for whom they substituted.

MUSIC BOOKS.

During the year 1900 your Committee made requisition for music supplies to the amount of \$7,619.12, which amount was reduced to \$4,513.02 by order of the Committee on Supplies of the Board of Education. Such severe cutting of a requisition, every item of which was needed, necessitates asking for an unusually large amount of supplies for the current year. Thus far in 1901 your Committee has made requisition for music supplies to the amount of \$11,629.88.*

PIANOS.

In 1900 twelve square pianos were furnished, one to each of the following schools: Eastern District High, Nos. 18, 20, 37, 43, 47, 59, 96, 104, 112, 114 and 133; and for kindergarten classes eleven upright pianos, one to each of Schools Nos. 3, 4, 14, 30, 44, 63, 75, 116, 118, 120, 133. Thus far in 1901 one square piano has been furnished to each of Schools Nos. 18, 53, 59, 64, 70, 102, 120, and two to School No. 124.†

* Nov. 6, 1901.—The Committee on Supplies of the Board of Education having refused to allow the full amount of this requisition, it was cut to \$5,487.80 by direction of the Chairman of the Committee on Music. Additional requisitions amounting to \$1,601.80 have since been made, principally for new schools.

† Nov. 6, 1901.—Since the date of this report a grand piano has been furnished to the Boys' High School, two square pianos to School No. 42, and one square to each of the following schools: Nos. 84, 105, 122, 123, 125, 126, 127, 128 and 131.

For 1902 I recommend that in addition to pianos for new buildings and for kindergarten classes, four new square pianos be purchased, two for School No. 1, one for the second floor of School No. 15, and one for School No. 166. There will also be needed about \$600.00 for the tuning and repairing of pianos.

Respectfully submitted,

ALBERT S. CASWELL,
Director of Music.

HON. CHARLES E. ROBERTSON,
President of School Board,
Borough of Brooklyn.

DEAR SIR:

At the close of the meeting of the Committee on Buildings yesterday afternoon, Mr. Ross, Deputy Superintendent of School Buildings, Borough of Brooklyn, presented a report which he had prepared in compliance with the following resolution adopted by your School Board on November 6, 1901:

"Moved.—That the Deputy Superintendent of School Buildings be and hereby is, instructed to investigate and report to this Board as to the sanitary condition of all school buildings in this Borough."

The report was presented too late for consideration and was referred to me for examination, revision if necessary, and to be forwarded to your School Board.

Owing to previous engagements I was not able to take up the matter until this afternoon, and I find it impossible to get the report in such shape as to comply with the resolution, in time to be presented to your School Board, which I understand meets this afternoon.

The resolution is very wide in its scope, and before the report is made thereunder it must be carefully considered.

I will take up the papers in the case to-morrow and forward the report to you at the earliest possible moment.

Respectfully yours,

C. B. J. SNYDER,
Superintendent of School Buildings.

BOROUGH OF BROOKLYN, N. Y., November 18, 1901.

HON. BIRD S. COLER,

Comptroller of the City of New York.

DEAR SIR:

In compliance with your request of the 15th inst., for the reason of the application of the Central Board of Education for a transfer of funds amounting to \$180,000 from the General School Fund for the Boroughs of Manahattan and The Bronx for the year 1900, to the General School Fund of the Borough of Brooklyn for the same year, I beg to submit the following statement:

In preparing the estimate for moneys required for teachers' salaries for the year 1900 the School Board of the Borough of Brooklyn based its calculations upon the then existing By-Laws. Had no changes in the method of payment been made there would have been a surplus instead of deficiency in the General School Fund for the Borough of Brooklyn for the year 1900. The Central Board of Education on July 16, 1900, adopted certain rules and regulations to take effect as of May 3, 1900, the date of the enactment of the Davis Law. One of the rules provided that the salaries of teachers in all boroughs should be paid in twelve equal installments, one installment for each month in the calendar year. The teachers in the Borough of Brooklyn had up to the date, May 3, 1900, received their salaries in ten equal installments, one for each school month.

With the evident intention of preventing confusion in payments, the Central Board of Education subsequently amended its By-Laws so as to provide that the change in the mode of payments to Brooklyn teachers then in the system from the ten installment plan to that of twelve installments should not take effect until January 1, 1901. On September 26, 1901, the Central Board of Education again amended its By-Laws and provided that in the Borough of Brooklyn every teacher appointed prior to September 10, 1900, should continue to be

paid in ten equal installments from the beginning of his or her salary year in 1900 until the conclusion of his or her salary year in 1901, when the change to the twelve installment plan should be made. The pay-rolls for teachers in the Borough of Brooklyn were made up in conformity with this By-Law of the Board of Education, as evidenced by the fact that they were approved by its auditing bureau.

Later on, however, it became evident that the By-Laws of the Central Board of Education did not provide for the payment to Brooklyn teachers of the amounts to which they were legally entitled. Earnest appeals were made to the Board of Education by the Brooklyn School authorities and by the representatives of the several teachers' associations, to remedy the defect, and on June 26, 1901, the Board of Education adopted a plan for the adjustment of the salaries covering the period between May 3, 1900, and September 30, 1901, including portions of two fiscal years. Under this mode of adjustment certain amounts became chargeable to the General School Fund for the year 1900, that would, under the former plan in operation in Brooklyn of ten monthly payments, have been paid from the appropriation for the year 1901. Approval of the transfer of the amount of \$180,000, will enable the financial officers to charge to the appropriation of 1900 the amount payable therefrom and the General School Fund for the Borough of Brooklyn, 1901 will show a corresponding surplus.

Hoping that this matter will receive favorable consideration at the meeting of the Board of Estimate and Apportionment on Wednesday, November 20, I am,

Very respectfully,

C. E. ROBERTSON,

President.

HON. WILLIAM N. DYKMAN,

DEAR SIR:

A number of janitors were recently appointed to temporary

positions in several of the public schools in this Borough. The date of their appointments will be terminated during the first two weeks in December next. The result of the recent examination held by the Civil Service authorities for promotion of janitors will not be known, I am informed, until the first week in December. As it will take some days after that time to properly assign those who have successfully passed, I would respectfully ask that an extension of time be approved by the Civil Service Commission to those men now temporarily employed.

It is of the utmost importance that we know immediately whether this request will be granted. Will you kindly advise me at your earliest convenience what can be done in this matter?

Yours truly,

"DEAR SIR:

Mr. John J. Cashman, Chairman of the Committee on Buildings of the School Board for the Borough of Brooklyn, requests that an examination be held for promotion of Janitor-Engineers in Brooklyn.

Yours truly,

Up to this date, November 27, 1901, we have received no word from the Municipal Service Commission indicating that the results of the examination have been announced. As you are aware, several temporary appointments were made, pending the examination, and as several of these appointments are about to expire, it is of the utmost importance that we have on file in this office at once a list from which selections can be made to fill these vacancies.

I cannot impress upon you too strongly the necessity of keeping the public schools open on all school days.

BROOKLYN, N. Y., December 2, 1901.

TO HON. CHARLES E. ROBERTSON,
Pres. School Board, Borough Brooklyn.

DEAR SIR:

We the undersigned residents of School District No. 102 in the Borough of Brooklyn, have learned through the press, and otherwise, that there is a possibility of your Board taking our new school building of P. S. No. 102 for High School purposes, and reducing our Grammar School to an Inter-

mediate School. We feel that such a move would be a serious calamity to Bay Ridge.

1. Because the old school building of P. S. No. 102 is both unfit for school purposes, and is too small to accommodate the pupils of the proposed Intermediate School for No. 102 only on half day time, or short time classes.

2. The 209 pupils of the higher grammar grades of No. 102 would be compelled to travel from a mile to a mile and a half across bleak country roads to P. S. No. 127, even should your Board organize P. S. No. 127 into a grammar school.

3. There are not more than 100 pupils who would be accommodated by a high school at 71st street and 2d avenue any better than they would be at the proposed new Manual Training High School to be located on the site now owned by the City on 7th avenue and 4th street.

4. We, therefore, most earnestly request your honorable Board to permit P. S. No. 102 to remain the Grammar School of this district.

Signed.

BOROUGH OF BROOKLYN, December 3, 1901.
*To the Honorable, the School Board
of the Borough of Brooklyn.*

GENTLEMEN:

This is to notify you that Associate Borough Superintendent of Schools Edward B. Shallow, who has been in charge of the free lectures since they were organized, under the direction of the Brooklyn School Board, has been formally assigned by me to the work of supervising the said lectures.

Very truly yours,

J. H. WALSH,
Superintendent of Schools.

In connection therewith Mr. Hunt offered the following:

Resolved—That the action of the Borough Superintendent of Schools in assigning Associate Superintendent Edward B. Shallow to the work of supervising the free lectures, be and the same hereby is approved.

The resolution was adopted.

By Mr. Bassett:

To the Brooklyn School Board.

GENTLEMEN:

Your Committee appointed to investigate the matter of transportation of school children respectfully submit the following recommendations:

1. The transportation should be by trolley car, as in every instance the districts needing relief can thus be accommodated more conveniently, comfortably and economically than by other means.
2. The free transportation of pupils should be limited to children of the elementary schools and to cases where entire grades of classes are transferred to schools at more than a reasonable walking distance.
3. None of the lower grades should be transferred.
4. This matter of transportation should not be considered as a permanent arrangement, but as a temporary expedient justified only where vacant class rooms in certain buildings are available for the relief of overcrowded schools with part time classes, or when in remote districts the very small size of the higher grades renders their separate maintenance impracticable.

5. Subject to the above conditions and to the approval of the Borough Superintendent, your Committee recommends that transportation be provided as follows:

a. First and second grammar grades from P. S. No. 114 to P. S. No. 73. Estimated number of pupils, 15.

b. Seven classes from P. S. No. 94 to P. S. No. 134. Estimated number of pupils, 300.

c. Two classes from P. S. No. 90 to P. S. No. 111. Estimated number of pupils, 90.

d. First to seventh grammar grades inclusive from P. S. No. 100 to P. S. No. 98 and P. S. No. 128. Estimated number of pupils, 200.

EDWARD M. BASSETT,

DEPARTMENT OF EDUCATION,

BOROUGH OF BROOKLYN, N. Y., December 18, 1901.

MR. GEORGE G. BROWN,

Secretary, School Board,

DEAR SIR:

I hereby call a special meeting of the School Board for the Borough of Brooklyn, N. Y., to be held on Monday, December 23, 1901, at 4 o'clock P. M., for action on reports of Standing Committees.

Yours truly,

C. E. ROBERTSON,
President.

Ordered on file.

From the Board of Education:

BOARD OF EDUCATION,

NEW YORK, December 12, 1901.

GEORGE G. BROWN, Esq.,

*Secretary, School Board,**Borough of Brooklyn.*

DEAR SIR:

Enclosed herewith please find certified copy of report and resolution adopted by the Board of Education on the 11th inst. denying the request of the School Board for the Borough of Brooklyn to have the buildings in the rear of Erasmus Hall altered for the use of classes of the Erasmus Hall High School.

Respectfully,

A. E. PALMER,
Secretary, Board of Education.

To the Board of Education:

The Committee on Buildings, to which was referred a resolution adopted by the School Board for the Borough of Brooklyn on November 6, 1901, requesting that the buildings in the rear of Erasmus Hall be altered to accommodate classes of the Erasmus Hall High School, at a cost not to exceed \$5,000, the amount to be taken from the Bond Account, respectfully submits the following:

The matter has been investigated and it is found that the buildings referred to are six small cottages in the rear of Erasmus Hall High School. To fit them for school use would require extensive alterations at a large expenditure, and your Committee would therefore recommend that the request of the School Board be not concurred in.

The following resolution is offered for adoption:

Resolved, That the request of the School Board for the Borough of Brooklyn to have the buildings in the rear of Erasmus Hall altered for the use of classes of the Erasmus Hall High School, be not concurred in, for the reason that it is not considered advisable to expend the sum of \$5,000 for fitting up the buildings in question.

A true copy of report and resolution adopted by the Board of Education on November 11, 1901.

A. E. PALMER,
Secretary, Board of Education.

From the Board of Education:

BOARD OF EDUCATION,

NEW YORK, January 11, 1902.

GEORGE G. BROWN, Esq.,

*Secretary, School Board,
Borough of Brooklyn.*

DEAR SIR:

Enclosed herewith please find certified copy of preamble and resolutions adopted by the Board of Education, at a special meeting held on January 11, 1902, relative to the preparation of payrolls, records of transfers, etc.

Respectfully,

A. E. PALMER,

Secretary, Board of Education.

Enclosure.

Mr. A. Stern offered the following:

Whereas, The changes in the system of school administration occasioned by the amended Charter necessitates corresponding changes in method of payment of salaries of teachers; and

Whereas, It is believed that changes in certain directions will tend to facilitate the preparations of teachers' payrolls and the payment thereof at or near the first day of the month succeeding the rendition of services; therefore

Resolved, 1. That (as soon as practicable) all payrolls throughout the system be printed, as to the following information in regard to principals and teachers:

- a. Name.
- b. Position.
- c. Schedule (salary).
- d. Grade (salary).

2. That all payrolls be prepared in the schools by the principals or by the principals' clerks, under direction of the principals, and filed by them in the Auditing Bureau of the Board of Education, without passage through unnecessary channels.

3. That all absences to be deducted, be deducted on the following plan:

January payroll, from Jan. 1st to 20th.

February payroll, from Jan. 20th to Feb. 20th.

March payroll, from Feb. 20th to March 20th.

April payroll, from March 20th to April 20th.

May payroll, from April 20th to May 20th.

June and July payroll—May 20th to June 20th.

August payroll, from June 20th to June 30th (say closing of schools).

September payroll, from opening of schools to Sept. 20th.

October payroll, from Sept. 20th to Oct. 20th.

November payroll, from Oct. 20th to Nov. 20th.

December payroll, from Nov. 20th to Dec. 24th.

4. That the By-Laws be amended so as to provide that all payrolls be filed in the Auditing Bureau of the Department of Education on the 20th day of each month that the schools are in actual session, excepting the month of August, when said month's payroll may be filed as soon as possible after the payment of the June-July payroll.

5. That all records of transfers, promotions, approvals of service, new appointments, etc., be filed in the Auditing Bureau of the Board of Education as and when the same occur, or as soon thereafter as is possible, but not later than the 20th of each month.

6. That in the event of deaths, resignations and transfers occurring between the 20th and 30th of any month, and thereby affecting the payrolls of such month, the record of the same be filed by the principals or other authorities with the Auditing Bureau of the Board of Education, as and when the same may occur, but not

later than the last day of the month, in order that the month's payroll may be adjusted prior to payment thereof.

7. That, *unless in special and exceptional cases*, no transfers be made to take effect in the period between the 20th and the last day of any month. In such exceptional cases, the fractional part of the transferee's salary be paid on the succeeding month's payroll; as also in the case of new appointees during the before-mentioned period.

Resolved, That the Secretaries of the several School Boards, as now existing, be, and they are hereby, directed to prepare and transmit to the principal of each school, a statement which shall show:

Resolved, That, pending the preparation of By-Laws, all By-Laws and parts of By-Laws inconsistent with the purposes of these resolutions be, and they are hereby suspended.

DEAR SIR:

I have the honor to inform you that at a special meeting of the Board of Education held on January 11, 1902, a resolution was presented from the Board of Estimate and Apportionment approving of the appropriation of \$6,827.81, premiums on Corporate Stock, to be applied (in addition to the appropriation authorized by said Board on March 14, 1901) to the settlement of the awards, etc., in the proceedings to acquire school site on Avenue C, East 13th and East 14th streets, Borough of Brooklyn.

Respectfully,

A. EMERSON PALMER,

Secretary, Board of Education.

BOARD OF EDUCATION,

NEW YORK, January 24, 1902.

GEORGE G. BROWN, Esq.,

Secretary, School Board,

for the Borough of Brooklyn.

DEAR SIR:

I have the honor to inform you that at a meeting of the Board of Education held on January 22, 1902, reports and resolutions relating to the Borough of Brooklyn were adopted as follows:

1. Transferring Francis J. O'Malley, clerk in the office of the Borough Superintendent of Schools, to the Depository for Supplies, Borough of Brooklyn, to take effect January 23, 1902.

2. Approving the request of the School Board that the salaries of janitor engineers of the schools named be fixed as follows:

SCHOOL.	NAME.	TO DATE FROM	ANNUAL SALARY.
51.....	John Reilly	Dec. 28, 1901..	\$1,155 00
71	John F. Kirby.....	Jan. 7, 1902..	900 00
184.....	William H. Boland..	Dec. 28, 1901..	1,400 00
12	Francis X. Polster...	Jan. 8, 1902..	1,200 00

3. Rescinding so much of the resolution approved by the Board of Education at the meeting held on July 22, 1901, as refers to fixing the salary of the janitor of Public School 90 at \$1,000 per year, to take effect upon the date he is relieved of the care of Public School 89, and fixing the salary of the janitor of Public School 90 at \$600 per year, to take effect upon the appointment of his successor to take charge of Public School 89.

4. Rescinding the report and resolution adopted on November 13, 1901, relative to leasing the premises No. 1234 Bedford avenue, and requesting the Commissioners of the Sinking Fund to authorize a lease of the store floor in the premises No. 1195 Bedford avenue, for two years from February 1, 1902, at an annual rental of \$360, the owner to paint the interior woodwork, plaster work, etc.

5. Requesting a lease of the premises No. 146 Lynch street, for the month of December, 1901.

6. Denying the request of the School Board that two patrol inspectors be appointed at a salary of \$1,200 per year each, as it is not deemed advisable to appoint inspectors for the special purpose of visiting the school buildings to see that the janitors properly perform their duties, as none of the other boroughs have inspectors for these special duties.

At the same meeting notice was received from the Board of Estimate and Apportionment of the adoption of a resolution approving a requisition of the Board of Education for the

appropriation of \$119,747, proceeds of Corporate Stock, for the erection of new Public School 139, Borough of Brooklyn, George Hildebrand, contractor.

Respectfully,

A. EMERSON PALMER,
Secretary, Board of Education.

BOARD OF EDUCATION,

NEW YORK, January 24, 1902.

GEORGE G. BROWN, Esq.,

Secretary, School Board,

for the Borough of Brooklyn.

DEAR SIR:

Enclosed please find certified copy of report adopted by the Board of Education on January 22, 1902, relative to claims of teachers in public schools in the Borough of Brooklyn for repayment of sums advanced by them to substitutes, etc.

Respectfully,

A. EMERSON PALMER,
Secretary, Board of Education.

Enclosure.

The Committee on By-Laws and Legislation, to which was referred the accompanying report and resolution adopted by the School Board for the Borough of Brooklyn, respectfully reports that it has given the matter its consideration, and in regard to that part of the resolution passed by the School Board for the Borough of Brooklyn requesting the Board of Education to act in the matter of providing for the refunding to certain teachers in said Borough certain moneys paid by said teachers to persons acting as substitutes during their absence, reports as follows:

It appears from the investigation made by your Committee that during the year 1900 very many teachers employed in the schools of the Borough of Brooklyn were absent at various times. The payrolls show that these teachers were paid in full, notwithstanding such

absence. Certain persons having no licenses to teach, by permission of the School Board for the Borough of Brooklyn were permitted to act as substitutes during the absence of these teachers. These persons so acting as substitutes were paid by the teachers with the authority of and by direction of the School Board of the Borough of Brooklyn. Absences were subsequently excused, and it is now endeavored to refund to the teachers so absent the moneys paid by them to these persons acting as substitutes.

The persons acting as substitutes were employed in violation of Section 1081 of Chapter 378 of the Laws of 1897, which provides that no person shall teach in any public school in The City of New York who has not a license, nor shall any unlicensed teacher have any claim for salary. This money having been paid contrary to the provisions of the law above quoted, it is now asked that this Board direct or find some method to refund the same to the persons so paying said moneys.

Your Committee has investigated the same, and while it appears that, at the time the said persons were employed, regularly licensed substitutes could not be procured, yet your Committee can offer no remedy in the premises or suggest any means whereby the action of these teachers in making such payments can be legalized.

Wherefore, it reports that this Board cannot, under the circumstances, take any action directing the refunding of the moneys paid as aforesaid.

As to the remaining portion of the resolution submitted, questioning the legality of By-Laws adopted by this Board, your Committee answers the same as follows:

The Law Committee of the School Board for the Borough of Brooklyn in its report complains that the Board of Education had no power to make a By-Law defining what shall constitute a "mixed class." The answer to this is that the Board of Education is empowered by Chapter 751 of the Laws of 1900 to adopt By-Laws fixing the salaries of the teaching staff, which By-Laws shall establish a uniform schedule of salaries. Under this provision, the Board had the right to designate

what should constitute a "mixed class." Otherwise a teacher of a class in the Borough of Queens with one boy and thirty girls would receive the same salary as a teacher in another Borough with a class of one girl and thirty boys. If the reason for giving an increase of salary to the teachers of boys' and mixed classes is that it entails harder work, then it is apparent that the classes should be uniform; otherwise it would be a simple matter to make all classes mixed classes by putting in each class one boy, and thus the law would be evaded.

This was not the intention of the Legislature. It is the duty of the Board of Education to provide for uniformity of salaries; this duty cannot be properly performed in regard to mixed classes unless a uniform rule is established applicable throughout the city, providing for a uniform method of establishing mixed classes.

In regard to those teachers having charge of mixed classes coming within the restrictions and definition provided for by the By-Laws of the Board of Education on May 3, 1900, and who continued in charge of the same for the period provided for by said By-Laws, they were entitled to the extra compensation from May 3, 1900.

In regard to the method of payment of the \$60 extra, provided for by the By-Laws, we are of the opinion that the Board of Education, within the general powers conferred upon it to administer the General Fund and to regulate salaries and to make them uniform, has the power to prescribe the mode of payment.

Chapter 335 of the Laws of 1887, referred to in the report of the Law Committee of the School Board for the Borough of Brooklyn, in our opinion applies to teachers with whom yearly contracts are made as provided for by Section 1 of that act, and is not applicable to the City of New York.

Complaint is also made by said Committee that upon retirement of a teacher she should get, if she is in charge of a mixed class, one half of the extra compensation. We believe this criticism is just, and if the pen-

sioner has had charge of a mixed class for the period required by the By-Laws, there should be included in the amount payable to her for her pension one-half of the \$60 extra compensation.

Criticism is also made by said Committee that the Board of Education had no power to define the term "regular teachers," and that the definition as provided for in Section 74 of the By-Laws of the Board of Education is illegal. We answer the criticism as follows:

While Chapter 751 of the Laws of 1900 does not specifically use the words "regular teacher," and the use of that term is an inadvertence, the intention was to define the word "teacher" as meaning a regular teacher. An examination of the language of said act makes it apparent that the provisions were only to apply to teachers answering to this description. The act in question provided in the minutest detail for salaries of teachers. It specifically mentions teachers of graduating classes, teachers of the grades of the last two years, and teachers of the grades other than of the last two years, first assistants, vice-principals, heads of departments and principals, providing for the mandatory initial and maximum salary of each of the persons answering to these respective positions. A special teacher is not a teacher of a class of any particular grade, and cannot be construed as coming within the specific designation of a class teacher of the grades particularly mentioned in the act. The persons teaching said grades were well known and recognized, and constituted at the time of the passage of the act as "regular teachers." They were such persons as were in charge of regular, organized, permanent classes. Their duties were of a permanent, continuous and unintermittent nature, and not like those performed by special teachers, whose duties were irregular in their nature, fitting from place to place and from grade to grade. Their employment was not of a permanent nature. In most cases they were employed by the hour only, and their compensation was at the time of the passage of the act made and based upon hourly service.

Under these circumstances, it is perfectly clear to us that they did not come within the provisions applicable to the "teachers" designated in the act in question. The Board of Education, by virtue of the powers vested in it, has provided a schedule of salaries for special teachers, providing for annual increases, which schedule is fair and in every way adequate.

The objection of the Brooklyn Board to the manner in which Schedule II is formulated, providing for the salaries of heads of departments and principals of small schools, in that the same is misleading, is untenable for the following reasons: The requirements demand that, before a teacher can become a "head of department," he or she must have had eight years' previous experience as a regular teacher. Chapter 751 of the Laws of 1900 states that no female head of department after ten years of service shall receive less than \$1,600, and no male head of department after ten years of service shall receive less than \$2,400. It will be noticed that the "years of service" referred to is service generally as a teacher, and not service as a head of department. In this respect the language is different from the language employed in reference to principals. In the latter case the language is "years of service as such." For this reason the method employed in making the schedule was adopted by your Committee. In fact, your Committee was requested to adopt said method by and upon the petition of those occupying the positions of heads of departments in the Borough of Brooklyn.

No provision is made in the act for principals of schools of less than twelve classes, and your Committee, taking into consideration the above facts, has made the present schedule.

The Committee of the Brooklyn Board further complains in regard to the system of approval of teachers in elementary schools, and to the discrimination made between them and those whose experience was gained outside of The City of New York.

Answering the criticism of said Committee, your Committee states that, so far as crediting those having ex-

perience outside of The City of New York, the law distinctly provides that the Board of Examiners shall certify the credit to which such teachers are entitled, and that such certificate shall be conclusive. The Board of Examiners, having this power of discrimination, has taken the same into consideration in determining the credit given to those coming from outside of The City of New York, and from an investigation of said method your Committee finds that no injustice has been done or hardship created, and no amendment to the By-Laws is necessary or proper.

The request of the Brooklyn Committee that the salaries of teachers and principals in truant schools should be changed ought to be denied. The truant school is not an elementary school, and this Board has adopted a schedule applicable to truant schools eminently proper and just. Your Committee is not aware of any one in the high or training schools who does not receive the salary to which he or she is entitled by law. If any individual case arises, the matter will be provided for upon application of the individual complaining.

Your Committee has carefully considered all of the suggestions embodied in the report of the Law Committee of the School Board for the Borough of Brooklyn.

Many of these suggestions were passed upon and considered by your Committee at the time of the framing of the salary schedules.

We have again considered them, and have come to the conclusion that all of said recommendations, excepting as otherwise determined herein, are without merit, and ought to be denied.

The report was approved.

By Mr. Cashman:

The Committee on Buildings respectfully reports that at a meeting of the School Board held on October 1, 1901, this Committee recommended the adoption of a resolution requesting the Board of Education to fix the salaries of certain janitors in vacation schools and playgrounds for services rendered from July 5, 1901, to August 17, 1901.

Under the rules and regulations of the Municipal Civil Service Commission, as interpreted by the Commission at the time of preparing the resolution submitted by your Committee, janitors could not be paid an amount in excess of that fixed for the grade in which they were placed by the civil service regulations. As a result of such interpretation many of the janitors of vacation schools and playgrounds were not paid the full amounts earned, and in some cases received nothing for services rendered.

The restrictions referred to above having been removed, your Committee would recommend that the amounts justly due to janitors of vacation schools and playgrounds as compensation for services rendered be paid. The following resolutions are submitted for adoption:

Resolved—That the Board of Education be and is hereby requested to pay to the janitors of vacation schools and playgrounds named below the amount set opposite each name, being the balance due in each case for service rendered during the period beginning July 5, 1901, and ending on August 17, 1901, viz.:

The resolution was adopted.

By Mr. Bassett:

Whereas, There is danger that the recommendations of this Board relative to the transportation of children, passed December 3, 1901, cannot be carried into operation on February 1, 1902, because the Board of Education has deemed it necessary to advertise for bids on transportation contracts, and no contracts have yet been let, and

Whereas, It is desirable that these changes should begin with the new term in order to prevent the making of new classes, or the consolidation of old classes, during term time,

Resolved—That this Board strongly recommends that the plan of transportation be put into operation February 1, 1902, by issuing car tickets to the pupils to be transported, until contracts can be let.

The resolution was adopted.

Mr. Metz moved that the Special Committee appointed to co-operate with the members of the Teachers' Association to consider the erection of a memorial to the late Edward G. Ward, be discharged from further consideration of the subject.

The motion was agreed to.

Mr. Freifeld moved that a rising vote of thanks be tendered to the President, Secretary and Assistant Secretary of this School Board for the faithful and efficient manner in which they have performed the duties appertaining to their respective offices.

The motion was agreed to.

Mr. Freifeld moved to adjourn.

The motion was agreed to.

The President thereupon declared the Board adjourned *sine die*.

Secretary.
